GLOSSARY

Displaced Household	All members of a subproject affected household residing under one roof and operating as a single economic unit, who are adversely affected by the Project or any of its components; may consist of a single nuclear family or an extended family group.
Displaced Persons	In the context of involuntary resettlement, displaced persons are those who are physically displaced (relocation, loss of residential land, or loss of shelter) and/or economically displaced (loss of land, assets, access to assets, income sources, or means of livelihoods) as a result of (i) involuntary acquisition of land, or (ii) involuntary restrictions on land use or on access to legally designated parks and protected areas.
Compensation	Payment in cash or in kind of the replacement cost of the acquired assets.
Cut-of-Date	The completion date of the census of project-displaced persons is usually considered the cut-off date. A cut-off date is normally established by the borrower government procedure that establishes the eligibility for receiving compensation and resettlement assistance by the project displaced persons. In the absence of such procedures, the borrower/client will establish a cut-off date for eligibility.
Encroachers	People who have trespassed onto private/community/public land to which they are not authorized. If such people arrived before the entitlements cut-off date, they are eligible for compensation for any structures, crops or land improvements that they will lose.
Entitlement	Range of measures comprising compensation, income restoration, transfer assistance, income substitution, and relocation, which are due to displaced persons, depending on the nature of their losses, to restore their economic and social base.
Economic Displacement	Loss of land, assets, access to assets, income sources, or means of livelihood because of (i) involuntary acquisition of land, or (ii) involuntary restrictions on land use or on access to legally designated parks and protected areas.
Involuntary Resettlement	Land and/or asset loss, which results in a reduction of livelihood level. These losses have to be compensated for so that no person is worse off than they were before the loss of land and/or assets.

Meaningful Consultation	Is a process that (i) begins early in the project preparation stage and is carried out on an ongoing basis throughout the project cycle; (ii) provides timely disclosure of relevant and adequate information that is understandable and readily accessible to affected people; (iii) is undertaken in an atmosphere free of intimidation or coercion; (iv) gender inclusive and responsive, and tailored to the needs of disadvantaged and vulnerable groups; and (v) enables the incorporation of all relevant views of affected people and other stakeholders into decision making, such as project design, mitigation measures, the sharing of development benefits and opportunities, and implementation issues.
Physical displacement	Meaning relocation, loss of residential land, or loss of shelter as a result of (i) involuntary acquisition of land, or (ii) involuntary restrictions on land use or on access to legally designated parks and protected areas.
Rehabilitation	Compensatory measures provided under the ADB Policy Framework on Involuntary Resettlement other than payment of the replacement cost of acquired assets.
Replacement Cost	The rate of compensation for acquired housing, land and other assets will be calculated at full replacement costs. The calculation of full replacement cost will be based on the following elements: (i) fair market value; (ii) transaction costs; (iii) interest accrued, (iv) transitional and restoration costs; and (v) other applicable payments, if any. In applying this method of valuation, depreciation of structures and assets should not be considered.
Squatters	Meaning those people who do not own the land but are possessing and using it for residential, commercial, agricultural or other economic purposes, and as such they usually not entitled to land compensation but sometimes provided with assistance if they are found vulnerable; they are, however, entitled to compensation for the loss of built-up structures, trees, crops and other assets.
Vulnerable Groups	Distinct group of people who may suffer disproportionately from resettlement effects. The ADB SPS 2009 defines vulnerable groups as households below the poverty line, the elderly, those without legal title to assets, landless, women, children and indigenous people.

EXECUTIVE SUMMARY

1. **The Project:** The PICIIP project is comprised of two phases, phase-1 includes two cities, Sialkot and Sahiwal, and phase-II has been extended to seven cities, namely Multan, Sargodha, Muzaffargarh, Rahimyar Khan, Bahawalpur, Rawalpindi and Rajanpur. The PICIIP aims to improve the quality of life of the residents living in the selected cities of Punjab. It will transform the intermediate cities into urban centers which are more efficient, accountable and can serve as an engine of economic growth and sustainable development as per concept note. This aim will be achieved by addressing urban development challenges at the city level including city integrated planning, improved institutional framework for urban services, and improved urban infrastructure. Additionally, two cities, Lahore and Lala Musa are also included for institutional support and capacity development.
2. **The Sub-projects** under the scope of PICIIP have been divided into 27 packages. Among the total packages, this LARP is prepared for Waste Water Treatment Plant - PICIIP-12, located at Mouza located at Mouza /Village Mouza Kapoor Wali, Tonken Wali, Chak Kala and Chitti Sheikan Tehsil & District Sialkot. The Waste Water Treatment Plant will be established on a private agricultural land measuring 239.30 acres.
3. **Detailed Design:** The design was completed in May 2020 and the letter of acceptance has been issued for the proposed subproject. The contract is expected to be awarded in September, 2021(subject to the approval of LARP). This LARP is prepared based on the final design.
4. **Scope of Land Acquisition and Resettlement:** The LAR impacts of the Waste Water Treatment Plant is summarized as in the below ES .1.

Table ES.1: Type of Losses of DPs

Sr. No.	Description	Qty/Nos.	DHs	DPs	Remarks
1	Cultivated agriculture Land (Acres)	239.30	1024	5406	Total area to be acquired for Waste Water Treatment Plant is 239.30 acres owned by 1020 DHs (5406 DPs) and 4 DHs (21 DPs) are the tenants. Hence actual DHs and DPs of this subproject are 1024 and 5427 respectively.
2	Wood trees	153	22	117	Multiple counts, DHs/ DPs being affected due to impact on land and trees.
3	Fruit Trees	53	13	69	Multiple counts, DHs/ DPs being affected due to impact on land and fruit trees.
3	Tube well	59	55	313	Multicount, DHs /DPs being affected due to impact on land and irrigation pumps.
4	Pump house	23	23	122	There is total 23 DHs (122 DPs) of pump house. Multicount, DHs/ DPs are being affected due to impact on land, tube-wells and pump house
5	Boundary wall	1	1	5	Multicount: 1 DHs (5 DPs) are being impacted due to land and boundary wall.

6	Hooz	5	5	27	5 DHs (27 DPs) are impacted owing to losing their Hooz of the tube-wells. Multicount: DHs/DPs are being affected due to impact on land, tube-wells and Hooz
7	Handpumps	2	2	11	2 DHs (11 DPs) are impacted owing to losing their handpumps Multicount: These DHs/DPs are affected due to impact on land and handpumps.
8	Bore point	1	1	5	Multicount: 1 DHs (5 DPs) are being impacted due to land and bore point.
9	Impact Severity	-	936	4961	936 DHs (4961 DPs) are severely impacted owing to losing 10% and more of their productive assets.
10	Vulnerability	-	31	164	All 31 DHs (164 DPs) are cognized as the vulnerable on account of having income lower than the national minimum wage rate fixed by the government for the year 2021-22 i.e., Rs. 20,000 per month.
11	Tenants	-	4	21	These are the tenants
	Total	-	1024	5427	The actual DHs are 1024 and DPs 5427 for this subproject. From the total, 1020 DHs (5406 DPs) are the land owners and 4 DHs (21 DPs) are the tenants to land owners (cultivating the land).

5. **Cut-Off Date:** The census was completed on May 27, 2021. Hence May 27, 2021 has been formally established as the cut-off date for the Waste Water Treatment Plant component of the PICIIP project to define impacts and compensation entitlements. The cut-off date was communicated/informed to the DPs through consultation meetings.

6. **Project Categorization:** The subproject impacts are deemed significant as 936 DHs / 4961 DPs are losing 10% or more of their income-generating resources. Therefore, the subproject can be categorized as A for Involuntary Resettlement (IR) and C for IP (Indigenous Peoples) as no IPs as described in SPS 2009 exist in and around the subproject areas.

7. **Socioeconomic Information and Profile:** Socioeconomic section was developed based on the information collected from the field for all 1024 DPs through social survey. According to socio economic and census survey of DPs households (which are comprised on 5,427 family members), 49.57% (2690) of the members are male while 50.43% (2737) are females. The average family size in the subproject area is 5.3 persons. The literacy level of project area is 76%. In terms of income level, the monthly average income of the respondents is Rs. 47,772. Thirty-one surveyed households recognized as a vulnerable, i.e., 31 DPs fall below the poverty line as their monthly income is less than the government fixed wage rate Rs, 20,000 per month. The other categories like those without legal title to assets, landless, children and indigenous people were not identified. In terms of access to social amenity, all 100% (1024) houses in the subproject areas are electrified. Potable drinking water supply is accessible to 54% (557) with most of the people relying on groundwater, extracted either manually through hand pump or electrically through the electric pump. Only 58% (610) of the households have access on the sewerage and drainage system. Health and education facilities are available to 84% (888) and 90% (945) of the households respectively.

8. **Gender Issues:** Based on the outcomes of detailed consultations, the females pointed out their major concerns relating to the sub-project like i) compensation as per the market value

of the lost land, and assets ii) malodors resulting from the sub-project which will affect the surrounding population iii)) the construction activity may affect accessibility and transportation in case of emergencies, iv) availability of potable water, Sui gas, and iv) provision of subproject-related jobs for unemployed educated women.

9. **Information Disclosure, Consultations and Participation:** Consultation meetings with the DPs are ongoing since March, 2020. Separate meetings are arranged with women keeping in view the cultural limitations and to give women a free environment in which to discuss their issues. The consultation with the DPs and general public mainly focused on the compensation rate as per the market value of the affected structure, provision of compensation for non-titled land owners, provision of project related jobs for locals, timely completion of civil work, local movement should not be hindered during construction work; considerable time for relocation, provision of adequate time for relocation and payment of interest/markup on loan obtained from the bank.

10. The information related to the subproject, its possible impacts, mitigation measures, entitlements including the grievance redress mechanism were shared with the participants during the consultation meetings. In addition, the social team of PMU also shared the subproject Information Brochure with the local community in both English and Urdu languages dated August 12, 2020. In addition, this LARP once approved will be translated and distributed amongst the DPs and disclosed on EA and ADB websites.

11. **Legal Framework:** The land acquisition and compensation package for DPs has been prepared in accordance with ADB's SPS 2009 and the Land Acquisition Act of 1894 (LAA). Since SPS 2009 and LAA 1894 are not in full conformity to each other, gaps exist regarding compensation of DPs which are reconciled through the gaps reconciliation measures including (a) avoidance or minimization of land acquisition and resettlement impacts, (b) compensation at replacement costs for the lost assets, (c) establishing GRM, and (d) conducting community consultations (further details are presented in legal and policy section).

12. **The Entitlements Matrix:** have been determined as per the replacement cost of the lost land and non-land assets like structures, crops, trees and tube wells are in consistent with the project LARF and SPS 2009. Table 6.1 provides an Entitlement Matrix for different types of losses assessed during the census survey and Inventory of the Losses. It also covers the provisions for any unanticipated impacts arising during subproject implementation. Compensation and other assistances will be paid to DPs prior to dislocation and dispossession from acquired assets. However, in case, the payment is delayed more than a year from the date of valuation, the values will be indexed taking into account the annual inflation rate before payment to DPs.

13. **Resettlement Budget and Financing Plan:** Total resettlement budget has been calculated to Rs. 1144.01 million (US\$ 6.97 million). The compensation payment for land acquisition is Rs. 709.8 million, crop compensation is Rs. 31.71 million, tree compensation is Rs. 0.65 million, building structure is Rs.3.58 million, and cost of tube well & handpumps is Rs 3.59 million. Livelihood restoration measures amounting to Rs. 67.84 million. Other cost categories include administrative costs Rs. 81.71 million, monitoring and evaluation Rs 163.43 million and contingencies Rs. 81.71 million.

14. The Independent Valuation Study (IVS) worked out the differential of 9% for the land affected in Tokanawali (Residential Main Road) comprising of 0.031 Acre, similarly differential of 7% for the land affected in Tokanawali (Residential Off Road) comprising of 0.256 Acre, Whereas, differential of -9% is worked out for the land affected in Tokanawali (Agricultural Off road) comprising of 1.218 Acre which will be considered 0% on the basis of highest value prevailing between DPAC and IVS. Furthermore, there is a differential of 17% for the land affected in Chitti Shiekhan and Chak Kala (Phase 1) comprising of 32.743 Acres and 120.093 Acres respectively.

Land Acquired in phase 2 the Independent Valuation Study (IVS) worked out the differential of 37% for the land affected in Chak Kala (Agricultural Off Road) comprising of 64.94 Acres, similarly differential of 29% for the land affected in Chitti Shiekhan (Residential Off Road) comprising of 10.85 Acres, Whereas, differential of 25% is worked out for the land affected in Kapoor Wali (Agricultural Off road) comprising of 9.15 Acres. The crop compensation was not included in the award however, however, IVS assessed crop compensation on the basis of two seasonal crops (Summer and Winter) i.e Rs.31,707,647. Whereas, differential cost of trees is Rs. 215,195 (41.61%), Building structures is Rs. 1,824,817 (99.74%), and Tube well/Hand pump/bore Rs. 420,500 (3.52%). The total differential in the form of land and non-land assets of this subproject is Rs 163,892,701/- (27.97%) worked out on the basis of highest rate prevailing between DPAC and IVS. This includes all transaction costs, interests, labor, restoration costs and all applicable payments.

15. The costs are presented based on the final detailed design and final unit rates obtained from concerned department for the acquired assets assessed in a manner that consistent with the provisions outlined in this LARP, i.e., replacement cost basis. The resettlement and rehabilitation cost for the subproject will be financed through counterpart fund provided by the Government. The continuity in the flow of LAR funds will be the responsibility of PMU-LG&CD, hence the Local Government through PMU will ensure that all requisite compensation amount will be timely released for the payment of compensation and rehabilitation costs including allowances for income restoration. The compensation cost for land and other assets has already been transferred in the district treasury while the resettlement cost/ allowance will be placed in the revised PC-I and submitted to P&D for approval.

16. **Grievances Redress Mechanisms:** A three-tiered Grievance Redress Mechanism has been in place since May 4, 2020. It exists at the field level, city level, and PMU level. The GRM is easily accessible, gender-sensitive, culturally appropriate, widely publicized, and well-integrated in the project's management system. Efforts are made to record and resolve the grievances by the GRC within the allocated time (7-21 days). The complainants are updated in a timely manner on the progress of their logged complaints and subsequent actions taken by the GRC. If the DP is not agreed or satisfied with the decision of GRC, he/she can have direct access to court of law under section 18-22 of land acquisition LAA 1894. The GRC cannot impede a DP's access to the legal system, according to SPS, Annex 2, para 29. Thus, a DP can approach the courts at any time in accordance with the applicable legal provisions under Pakistan law. The record for the complaints received and resolved is well documented.

17. **Institutional Arrangements:** The LG&CD is the project executing agency (EA). The Program Management Unit (PMU) is responsible for the day-to-day management of the subproject (through respective CIUs). The social safeguards staff of the PMU is responsible for managing the LAR-tasks and activities including handling/resolving of any complaints or grievances of those displaced by the subproject (DPs) and fulfilling safeguard requirements. An External Monitoring Agent (EMA) is on board since 9th November, 2020 for the validation of LARP implementation process.

18. **Implementation Schedule:** The Resettlement Plan will be implemented in a participatory manner with the representations of all key stakeholders namely - the government, local elected representatives, and the displaced persons. As per this final LARP, compensation payment is expected to commence immediately after the approval of this LARP by ADB i.e., by 30th of August, 2021, while the external monitoring report will be submitted immediately after the completion of compensation disbursement (to be expected in October, 2021).

19. **Monitoring and Reporting:** PMU will establish a monitoring and evaluation system to support systematic monitoring of the implementation of Land Acquisition and Resettlement Plan. The LAR tasks will be monitored internally through the PMU on monthly basis and externally by the EMA with the concurrence of ADB. 1st safeguard external monitoring reports will be submitted

to ADB for acceptance before the start of construction activities. Later, quarterly safeguard monitoring report will be submitted to ADB to meet the loan requirements.

SECTION 1 PROJECT DESCRIPTION

20. This chapter presents the history and background of the proposed Waste Water Treatment Plant (WWTP). It also describes the subproject components, scope of resettlement, efforts to avoid/minimize the land acquisition and resettlement (LAR) impacts, and objectives of the Land Acquisition and Resettlement Plan (LARP).

1.1 Background of the Project

21. The PICIIP project is comprised of two phases, phase-1 includes two cities, Sialkot and Sahiwal, and phase-II is based upon seven cities, namely Multan, Sargodha, Muzaffargarh, Rahimyar Khan, Bahawalpur, Rawalpindi and Rajanpur. A pre-feasibility study has already been conducted for these seven cities under the City Development Initiative for Asia (CDIA) in 2019. The PICIIP aims to improve the quality of life of the residents living in selected cities of Punjab. It will transform the intermediate cities into urban centers which are more efficient, accountable and can serve as an engine of economic growth and sustainable development as per the concept note. This aim will be achieved by addressing urban development challenges at the city level including city integrated planning, improved institutional framework for urban services, and improved urban infrastructure. Additionally, two cities, Lahore and Lala Musa are also included for institutional support and capacity development. The detail is discussed in the beneath section.

22. **Purpose and Scope of PICIIP:** The Punjab Intermediate Cities Improvement Investment Program will build on the policy reforms already undertaken by the Government of Punjab (GoPb) in the urban sector. It will support GoPb's phased approach to urban development, focusing on broad urban reforms, followed by improvements in urban institutions and finally investments in infrastructure. It will address four core causes of low economic contribution and below optimum service delivery of urban centers, i) absence of strategic vision and integrated urban planning at the city level ii) ineffective and inefficient use of financial and natural resources iii) limited and unreliable financing of infrastructure and operation & maintenance iv) capacity constraints.

23. The sustainable urban development in cities will be achieved through a two-pronged strategy at the provincial level and in the selected intermediate cities. The sectoral institutional structure and capacity development will be achieved by i) enhancing the capacity of Local Government Staff working in cities ii) re-conceptualizing the effectiveness of Local Government Academy at Lala Musa and establishment of proposed Local Government Academy in Lahore as Centre of Excellence & key Capacity Building Institution for Local Government iii) review and refinement of urban policies, laws, and procedural guidelines for city planning, climate-resilient design and city infrastructure planning and management, integrated development asset management plan.

24. At the city level, the agenda of sector reforms will be implemented through CIUs and MCs for following reform and initiatives which will be further refined and approved by Govt. of Punjab during the project implementation. The agenda is as follows; i) The formulation of city development plans & master plans, asset management systems ii) Separation of asset ownership from service delivery through the use of existing or establishment of new corporate entities iii) Strengthened business processes and capacity of utilities and Local Government and iv) Investments in prioritized urban infrastructure.

25. **Project Description:** The Project under the scope of PICIIP has been divided into 27 packages. The detailed description of the packages is outlined in **Annex-B** of this LARP. Out of the total packages, this LARP is prepared for Waste Water Treatment Plant (WWTP) of Package-12, located at Mouza /Village Mouza Kapoor Wali, Tonken Wali, Chak Kala and Chitti Sheikan Tehsil & District Sialkot. The WWTP will be established on an area of private agricultural land measuring 239.30 acres as shown in **Figure 1.1**.

1.2 Design Status

26. The design was completed in May 2020 and the letter of acceptance has been issued for the proposed subproject. The contract was expected to be awarded in October, 2020 but now linked with the approval of this final LARP.

1.3 Scope of Land Acquisition and Resettlement

27. A total of 239.30 acres of private agricultural land will be affected due to PICIIP-Package-12 implementation. Section 12 of the LAA has been awarded on November 12, 2020 for 154 acres and March 5, 2021 for 84 acres of land and preparation of compensation vouchers are under process. The subproject also has the impacts on 23 pump houses, 59 Tube wells (irrigation pumps), 5 Hooz, (a small concrete water tank is constructed in front of the water delivery pipe of irrigation pumps/ tubewell to control the soil erosion and storing the water for their cattles) 1 boundary wall, 2 hand pumps, 1 bore points, and 206 trees including 53 fruit trees, and 239.30 acres of cropping area will be affected permanently. All the affected assets will be compensated in consistent with the SPS replacement cost. Further details on subproject impacts and compensation is provided in section-2 and section-6 of this final LARP respectively.

1.4 Project Categorization

28. As per ADB SPS 2009, the LAR impacts are considered significant if 200 or more persons experience major impacts such as being physically displaced from housing and losing 10% or more of their income-generating resources. As far as this final LARP is concerned, the impacts are deemed significant as 936 DHs are losing 10% or more of their income-generating resources (agricultural land). Therefore, the subproject can be categorized as A for Involuntary Resettlement (IR)

29. In term of Indigenous People (IP) category, the safeguards team of PMU carefully assessed the subproject areas for presence of any IP communities in the project area but no IP groups or communities, as described in SPS, have been found in the subproject area. Thus, the project is categorized C for IP policy. Therefore, an Indigenous Peoples Development Plan (IPDP) is not required for this subproject.

1.5 Exploring of Design Alternatives

30. The ADB's Safeguard Policy Statement (SPS) 2009 (for IR policy) aims to "avoid involuntary resettlement wherever possible or to minimize impacts if avoidance is not possible by exploring subproject and design alternatives; enhance or at least restore livelihoods of those affected by the subproject relative to pre-project levels and to improve the standards of living of those poor and other vulnerable groups. Following this aim of the SPS, the PICIIP project has been carefully conceptualized to either avoid all potential social impacts of proposed subprojects where possible or keep impacts to insignificant thresholds through adopting no or least impacts of subproject designs.

31. The following impacts and design mitigation measures were followed by the social safeguards team of PMU and design consultant:

- a. Maximum effort was made to avoid/minimize residential structures;
- b. Minimize the impact on agricultural land;
- c. Avoid impact on commercial structures; and
- d. Avoid the impact on the community and sensitive structures like masjid, graveyard and schools etc.

32. In general, as discussed earlier, the subproject has significant impact and these will be addressed through the preparation of this final LARP.

1.6 Objectives of Land Acquisition and Resettlement Plan (LARP)

33. This LARP is prepared as per Asian Development Bank (ADB) Safeguard Policy

Statement-2009 (SPS) and Pakistan’s laws and regulations on land acquisition and resettlement (LAR). The basic objectives of this LARP are as under:

- a. Identify and assess the impacts that implementation of a waste water treatment plant would have on the local population and conduct meaningful consultations with the affected and local communities to inform them about the project and its impacts;
- b. Quantify in monetary terms the assets to be acquired for the project;
- c. Provide a plan on how the DPs would be involved in the various stages of the project, including the implementation of the LARP; and
- d. Provide final LAR costs needed to implement the LARP.

1.7 LAR Requirements

34. This LARP is prepared on the basis of final detailed design and implementation of project is conditional to full implementation of ADB approved LARP. The following LAR requirements will need to be fully complied during contract award, and construction:

- a. **Civil Works Contract Awards:** Conditional on ADB cleared final implementation ready LARP based on the detailed design including final inventory of losses, final itemized LARP budget reflective of compensation rates on replacement cost basis and relocation rehabilitation and income restoration entitlement costs; safeguards management institutional set-up in place; and LARP implementation schedule synchronized with the construction activities.
- b. **Commencement of civil works:** conditional to confirmation (by EMA) of full implementation of LARP for the project including (a) compensation at full replacement cost paid to each displaced person; (b) other entitlements listed in the LARP have been provided; and (c) a comprehensive income and livelihood rehabilitation program, supported by an adequate budget, is in place, for subproject components.

Figure 1.1: Location of the Project Area

SECTION 2

SCOPE OF LAND ACQUISITION AND RESETTLEMENT

35. In this chapter the social impacts resulting from the subproject interventions are presented. The impacts on the DPs caused by the subproject are considered together with details of the land and other assets lost in the subproject.

2.1 Approach and Methodology

36. The following approach was adopted for conducting the land acquisition and resettlement impacts of Waste Water Treatment Plant to define/confirm the LAR impacts:

- a. Review of DDRs, project design, and design parameters to identify any potential land acquisition or resettlement impacts;
- b. Field visits along with the design team to identify and assess and reconfirm the LAR impacts of the project;
- c. Public consultations with DPs and the general public on the measures adopted to minimize LAR impacts in the Waste Water Treatment Plant. Consultations and meetings were also held with all the project stakeholders, including ADB (project officer, coordinators, international experts in water supply and sanitation, and safeguards unit), P&D (Planning & Development), Metropolitan Corporation Sialkot, project technical & steering committees, District Administration, revenue officials, Tehsil Municipal Administration, (Public Health Engineering Design (PHED), DPs, general population, EPCM, and internal meetings within the PMU on LAR impacts and sought their views and clarifications on the subproject design, gaps and the safeguard options to address the potential impacts;
- d. Multiple field site visits were conducted to confirm whether the design-related measures and steps including alternatives considered adequately addressed (avoided or minimized) the LAR impacts;
- e. Recording the field impacts situation as evidence of impacts situation to respond and avoid any conflicts with communities of Waste Water Treatment Plant and any false claims of compensation; and
- f. The collected data was processed according to separate category of the indicators for analysis purposes. All analysed data was tabulated for interpretation and deriving conclusions and recommendations.

2.2 Project Impacts

37. Overall, due to the project activities 239.30 acres of agricultural land will be affected permanently. Due to the acquisition of this land 1024 DHs (5427 DPs) will be affected out of which 1020 DHs (5406 DPs) are land owners and 4 DHs (21 DPs) are the tenants cultivating the land on share basis. However, few DPs have reported multiple impacts e.g., out of the total 1024 DHs (5457 DPs) 22 DHs (117 DPs) also have the non-fruit trees, 13 DHs (69 DPs) on fruit trees, 55 DHs (313 DPs) on Tube wells, 23 DHs (122 DPs) on pumphouse, 1 DHs (5 DPs) on bore point, (it is irrigation pump operated by tractor) 1 DH (5 DPs) on boundary wall, 2 DHs (11 DPs) on hand pumps, 5 DHs (27 DPs) on Hooz, (small concrete water tank) 936 DHs (4961 DPs) are severely impacted as 10% or more than 10% of their productive assests are severely impacted and 31 DHs (164 DPs) have been recognized as vulnerable due to their low income. i.e., below the government fixed minimum wage rate, i.e., Rs.20,000/ month.

38. The detail is given in the following subsections.

Table 2.1: Type of LAR Impacts

Sr. No.	Description	Qty/Nos.	DHs	DPs	Remarks
1	Cultivated agriculture Land (Acres)	239.30	1020 ¹	5406	Total area to be acquired for Waste Water Treatment Plant is 239.30 acres owned by 1020 DHs (5406 DP) and 4 DHs (21 DP) are the tenants. Hence actual DHs and DP of this subproject are 1020 and 5427 respectively.
2	Wood trees	153	22	117	Multiple counts, DHs/ DP being affected due to impact on land and trees.
3	Fruit Trees	53	13	69	Multiple counts, DHs/ DP being affected due to impact on land and fruit trees.
3	Tube well	59	55	313	Multicount, DHs /DP being affected due to impact on land and irrigation pumps.
4	Pump house	23	23	122	There is total 23 DHs (122 DP) of pump house. Multicount, DHs/ DP are being affected due to impact on land, tube-wells and pump house
5	Boundary wall	1	1	5.3	Multicount: 1 DHs (5 DP) are being impacted due to land and boundary wall.
6	Hooz (small concrete water tank)	5	5	27	5 DHs (27 DP) are impacted owing to losing their Hooz of the tube-wells. Multicount: DHs/DP are being affected due to impact on land, tube-wells and Hooz
7	Handpumps	2	2	11	2 DHs (11 DP) are impacted owing to losing their handpumps Multicount: These DHs/DP are affected due to impact on land and handpumps.
8	Bore point	1	1	5	Multicount: 1 DHs (5 DP) are being impacted due to land and bore point.
9	Impact Severity	-	936	4961	936 DHs (4961 DP) are severely impacted owing to losing 10% and more of their productive assets.
10	Vulnerability	-	31	164	All 31 DHs (164 DP) are cognized as the vulnerable on account of having income lower than the national minimum wage rate fixed by the government for the year 2021-22 i.e., Rs. 20,000 per month.

¹ The land was acquired in 2 phases and assessment was made by the revenue department. In first phase, 154 acres of land from mouza Tokanawali, Chak Kala and Chitti Shiekhan was acquired. Whereas, in second phase, 84 acres of land was acquired from Chak Kala, Chitti Shiekhan and Kapoor Wali. Under this project land of Chak Kala and Chitti Shiekhan is acquired in both phases having different land assessment made by revenue department due to which same land owners are repeated in both phases and are enlisted accordingly in Annex-C. Hence, there are 1020 DP are the legal land owners in phase 1 & 2 (without duplication)

11	Tenants	-	4	21	These are the tenants
	Total	-	1024	5427	The actual DHs are 1024 and DPs 5427 for this subproject. From the total, 1020 DHs (5406 DPs) are the land owners and 4 DHs (21 DPs) are the tenants to land owners (cultivating the land).

2.3 Project Impact on Land

39. The subproject has the impact on 230.39 acres of the private land owned by 1020 land owners. The land was acquired in 2 phases and assessment was made by the revenue department. In first phase, 154.72 acres of land from mouza Tokanawali, Chak Kala and Chitti Shiekhan was acquired. Whereas, in second phase, 84.5 acres of land was acquired from Chak Kala, Chitti Shiekhan and Kapoor Wali. Under this project land of Chak Kala and Chitti Shiekhan is acquired in both phases having different land assessment made by revenue department due to which same land owners are repeated in both phases and are enlisted accordingly in Annex-C. Hence, there are 1020 DPs are the legal land owners in phase 1 & 2 (without duplication). Additionally, 4 are the tenants who cultivate the land on share basis. Among the 1024 DHs and 5427 DPs, 936 DHs / 4961 DPs will lose 10% or more of their land, therefore, they will be considered as severely affected. List of affected DPs along with their compensation is attached as **Annex-C**

2.3.1 Impact on Crops

40. The proposed subproject will have impact on the cropping area of 239.30 acre belonging to 1020 land owners and 4 tenants. Major crops grown are wheat and Rice. Others crops like vegetables and fodder are also cultivated. On average, the per Acre yield is 36.25 mounds² of wheat and 46.25 mounds of rice, this information was reported by the DPs during the survey. During assessment of non-land asset by agriculture department, there were no standing crops on acquired land thus, no crop compensation was determined by agriculture department. As per ADB policy, The project requires to use the highest average yield over the past 3 years as per approved LARF. Keeping in view of above, Crop compensation is assessed by Independent Valuation Study and assessed the market value of wheat is Rs. 1450 /40kg for wheat and Rs.1850/40kg for rice. Similarly, the cropping area for wheat is 239.30 acres (winter crop) and rice is 239.30 acres (summer crop). Thus, the total gross annual income from one acre of cropping area is estimated at Rs.132,000/- and same will be provided as the crop compensation (one- year crop (wheat and Rice harvest) to DPs. List of crops affected DPs along with their compensation is attached as **Annex-D**.

2.3.2 Affected Trees

41. The subproject will cause the cutting of 206 trees including 53 fruit trees owned by 35 DHs. The assessment was made by the concerned forest and agriculture departments. The PMU/CIU team also participated in the assessment survey. List of trees affected owners along with their compensation is attached as **Annex-E**.

2.3.3 Impact on the Building Structures (Pumphouses)

42. The subproject has impacts on 23 pump houses owned by 23 DHs. The total covered area assessed by Building department is 5185.3 sq.ft for pumphouses and 182.25 rft is assessed as the area of boundary walls. List of DPs along with the building structures are annexed as **Annex F**.

² 1 Mound = 40 kg

2.3.4 Impact on Tube well/Irrigation Pumps

43. The subproject has an impact on 60 Tube wells owned by 56 DHs. these irrigations pumps are operated by peter engine electricity and one bore point is powered by the Tractor. All tube wells including bore point are used for irrigation purposes. The list of DPs along with the tube wells is given as the **Annex-G**.

2.3.5 Impacts on the Commercial Structures

44. As per available revenue record and field assessment including consultations with the DPs, the WWTP, Sialkot does not have any impact on any Commercial Structure.

2.3.6 Impact on Community Assets

45. As per available revenue record and field assessment including consultations with land owners, this subproject does not have any impact on the community assets like Masjids, graveyards, or common access way, etc.

2.4 Impact on Livelihood

46. The subproject has the impact on the livelihood of 4 tenants who are cultivating the land on share basis. These tenants do not have any alternate source of income.

2.5 Severity of Impact

47. The impacts are deemed significant as 936 DHs are losing 10% or more of their productive land assets.

SECTION 3

SOCIO ECONOMIC INFORMATION AND PROFILE

3.1 General

48. This chapter presents an overview of the socio-economic information of subproject area and focused on the displaced persons. The key socio-economic indicators are demography, literacy rate, income, and employment and access to infrastructures. The main objective of the study is to analyze socioeconomic and cultural characteristics of the subproject area and DPs. The study also provides information to the design in order to make the subproject interventions more effective, socially acceptable, culturally appropriate, gender sensitive and economically viable. The socio-economic questionnaire that was used is presented in **Annex-H**.

3.2 Population Profile

48. The total population of 1024 displaced households are 5427 and among them 49.57% (2690) of the members are male while 50.43% (2737) are females.

3.2.1 Family Size

49. As per social survey, the average family size in the subproject area is 5.3 persons.

3.2.2 Age Structure

50. The data regarding the distribution of DPs by age categories indicates that around 36% of household members are up to 45 years old while the majority 56% are above 45 years of age.

3.3 Literacy Level

51. The literacy rate has shown a gradual/uniform increase in Punjab over the last 15 years and the same positive trend was observed in the subproject area. The educational facilities in the area range from primary level schools up to universities and specialized institutions such as technical, medical and vocational institutions. As per field survey, 24% respondents are reported as illiterate while 76% are literate.

3.4 Material Possessions

52. Table 3.1 presents the percentages of the surveyed households that possess various durable commodities and means of transportation. The table shows that televisions and mobile phones are common devices used by most of the households for information and communication. All households possess mobile phones and electric fans. In addition, 96% (988) of households own a television. Another indicator of household socioeconomic status is ownership 21% (211) of a computer and availability of an internet connection. A refrigerator is available in 65% (667) of the households while 30% (304) have a washing machine. Motorcycles are the most common means of transportation in the subproject area with 61% (624) of respondents owning a motorcycle while 10% (102) own a car.

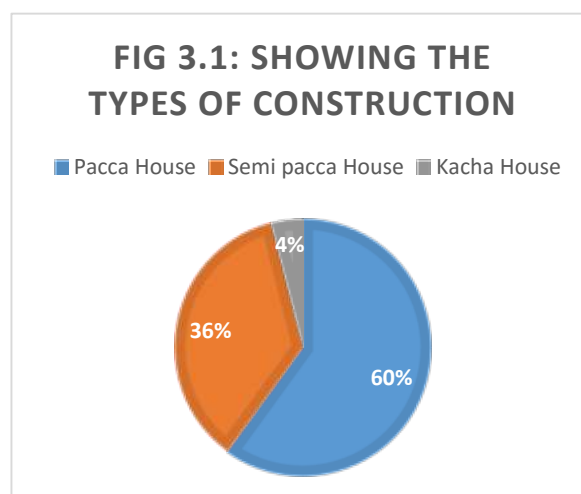

Table 3.1: Possession of Household Goods

Item	House holds	Item	House holds	Item	House holds
Mobile Phone	100%	Television	96%	Car	10%
Electric Fan	100%	Refrigerator	65%	Motorcycle	61%
Washing Machine	30%	Computer	21%	-	-

Source; Field Survey

3.5 Habitation

53. Habitation is identified as a space occupied for dwelling purposes. It is further classified into three categories i.e. “pacca”, “semi pacca” and kacha as reflected in Fig 3.1. Pacca houses 60% (620) are constructed with bricks, cement and concrete having wooden and steel doors and windows. Semi pacca houses are 36% (365) made of bricks (mixed with mud) and their roofs are mostly of wood, iron sheet and partially bricks. Meanwhile, 4% (39) are reported as kacha (made of mud and roofs are covered with wood and plastered with mud). The field investigation shows that 100% of the respondents live in self-constructed shelters. Also, all (100%) house properties are owned by men. None of the women in the area own house property.

3.6 Toilet Facility

54. Toilet facilities are available 100% of the DPs households, however, a small number of people engage in open defecation in fields. It has been observed that 96% (985) of households

have flush latrine and 4% (39) have pit latrines.

3.7 Household Income Sources

55. Numerous income generating activities are practiced in the area as reported by the survey. These include employment in the government and private sectors, wage laborers, business owners, shopkeepers, traders, and plumbers. In addition, some households receive foreign remittances.

3.8 Household Income

56. Survey data presented in Table 3.2 shows that the monthly average income of the respondents is Rs.47,772. However, in term of income category, 3% (31) of the DPs have their monthly income less than Rs. 20,000/-, 66% (667) earn in between Rs. 20,001- 40,000, 21% (218) of the households earns up to 75,000/month Whereas, only 10%% (98) of the surveyed households' income is above Rs. 75,000 per month. Details are given in below table;

Table 3.2: Monthly Income Category and Households

Sr. No.	Income Level (Rs. /Month)	Number	Percentage
1	Less than –20,000	31	03
2	20, 001- 40,000	667	66
3	40,001- 75,000	218	21
4	Above - 75,000	98	10
	Total	1024	100

Source: Field Survey

3.9 Expenditure

57. These expenditures include food and non-food items like fuel, education, health, clothing, utility charges, and other miscellaneous expenditures. Table 3.3 shows that the households with higher incomes have more saving capacity than the low-income households those can barely meet their expenses.

Table 3.3: Detail of Household Expenditures

Sr. No.	Description of Expenditure (Rs.)	Number	Percentage
1	Up to 20,000	31	03
2	20,001 – 40,000	775	76
3	40001 – 75,000	289	28
4	Above 75,000	29	03
	Total	1024	100

3.10 Access to Civic Facilities

58. Access to drinking water and sanitation is believed to be essential for health, security, livelihood, and quality of life, and is especially critical for women and children. Improved water supply and sanitation interventions could thus provide a wide range of benefits like longer lifespans, reduced morbidity and mortality from various diseases, and lowered health costs. Table 3.4 lists the available social amenities in the subproject area.

Table 3.4: Access to Social Amenities in the Sub-project Area

Sr. No	Social Amenities	Number	Percentage
--------	------------------	--------	------------

1	Electricity	1024	100%
2	Sui-Gas	54	38%
3	Water Supply	557	54%
4	Sewerage/Drainage	610	58%
5	Hospital	888	84%
6	School	945	90%
7	Road	775	76%

Source: Field Survey

59. Table 3.4 indicates that all the houses in the subproject areas have electricity. However, the people are not satisfied with the power supply owing to the frequent load shedding. Potable drinking water supply is accessible to 54% (557) with most of the people relying on groundwater, extracted either manually through hand pump or electrically through the electric pump. Similarly, 58% (610) of the households have access on the sewerage and drainage system while 42% (414) are still looking to have this facility. People complained that their life becomes miserable especially during the rain owing to the muddy streets. Health and education facilities are available to 84% (888) and 90% (945) of the households respectively. Surveyed households complained of the low-quality services provided in government hospitals and schools. Hence, they are compelled to avail these services from the private sectors, which are more expensive. Local people are dissatisfied with the available road infrastructure, as they are in need of extensive repair.

3.11 Agricultural Land Holding

48. The surveyed households' own farmland in terms of their land holdings, while the subproject has partial impact on their private land. Details are given in table 3.5.

Table 3.5: Land Holding of the Respondents

Sr. No.	Land Holding Size	Number	Percentage
1	0-1 acres	984	96.4%
2	1-2 acres	21	2.05%
3	2-3 acres	10	0.98%
4	3 – 4 acres	3	0.29%
5	4-5 acres	0	0%
6	5.1 – 15 acres	1	0.10%
7	> 15 acres	1	0.10%
	Total	1020	100%

49. The table indicates the small landholding in the project as 83% of the DPs has the holding up to 5 acres. As per table, 24% DPs having 0-1 acre of land, 17% DPs have the landholding up to 2 acres, 22% DPs owned the land up to 4 acres while 20% of households have a land holding of 4-5 acres. Moreover, 9% of the households owned in between 5.1 to 15 acres and the remaining households have land ownership of more than 15 acres. The land is used for cultivation purposes regardless of the fact that it is located in the vicinity of Sialkot city.

3.12 Gender Situation

50. Women have no recognized role in the authority structures of the villages. The traditional attitude of not sending girls to school is changing, because parents realize and understand that the basic education is necessary for each individual regardless of sex. Most of the women stay home and only travel outside the village to visit relatives, attend weddings

or to access healthcare at hospitals in nearby towns.

3.12.1 Impact on Vulnerable Groups

49. Distinct group of people who may suffer disproportionately from resettlement effects. The policy defines vulnerable groups as households below the poverty line, the elderly, those without legal title to assets, landless, women, children and indigenous people. The subproject has the impact on 31 DPs are recognized as vulnerable due having low income than the government fixed minimum wage rate, i.e., Rs.20,000/month for the year 2021-22. Field investigation also reveals that no other categories of vulnerability is existed in the subproject area.

51. The detailed list of vulnerable DPs along their allowances is attached as **Annex-J**.

3.12.2 Indigenous Peoples (IPs)

52. The impact assessment survey did not find any indigenous peoples as described in SPS. No people in the project area were found present with self-identification as members of a distinct indigenous cultural group and recognition of this identity by others, collective attachment to geographically distinct habitats or ancestral territories in the project area, to the natural resources in these territories, and customary cultural, economic, social or political institutions that are separate from those of the dominant society and culture. Therefore, such IPs have not been found living anywhere in the project area. Hence, ADB's Indigenous People policy is not applicable to the WWTP Sialkot.

3.12.3 Temporary Acquisition of Land (On Lease) for Contractor's Camp and Other Facilities

53. Temporary occupation of land will be required for the contractor during project implementation phase to establish the construction camps office and workshops etc. The land needed for setting up the contractor's office, residential quarters for contractor's staff/workers, workshop of equipment, vehicles and borrow/spoils deposit areas will be taken by contractor through negotiation with the land owners in the form of lease agreement under the supervision and approval of the PMU/CIU. However, the rental fee is to be based on applicable market rates (replacement cost) for land leases the rental fee. This imply that the land for the facilities of the contractor would be taken through a voluntary agreement which the landowner may refuse if s/he is dissatisfied with the terms offered. There are sufficient suitable alternative plots for this purpose. The contractor will restore the land to its original condition before handing it back to the land owner after the completion of the contract agreement. The conditions to this extent will be made in the bidding document.

54. The contractor through negotiation with the land owners in the form of lease agreement, and under the intimation and approval of the PMU/CIU, will get the land on lease, which will be restored and returned to the land owners in its original condition. The conditions will be made explicit in the bidding document.

SECTION 4

INFORMATION DISCLOSURE, CONSULTATION AND PARTICIPATION

4.1 General

55. This chapter describes the project stakeholders and their attitude towards the construction of Waste Water Treatment Plant project and the process adopted in consulting the displaced persons and general community. During peak COVID-19 period, the social distance was maintained during consultation meetings, groups were restricted and telephonic consultations were held where physical consultations were not possible. This chapter presents the views and perceptions of the DPs and local population on the subproject as expressed during consultation meetings. It also presents the disclosure activities including project brochure.

4.2 Consultation with Stakeholders

56. In the process of preparing this LARP, individual, and focus group discussions were held with the DPs, neighboring community, general public and officials of concerned departments especially with the revenue, agriculture, forest and building departments. These meetings were held from March 2020 to May, 2021. A total of 08 groups meetings were held with the DPs in which a total of 142 persons (27 DHs) participated. Separate meetings were held with women keeping in view the local traditions so that women could freely express their opinions and concerns regarding the project. A summary of the consultations done is shown in Table 4.1. These consultations will be continued by the project staff throughout the project cycle. The details of consultations are discussed as under;

- a) Formal consultation meetings were held with all DPs, concerned government officials, representatives of civil society organizations (CSOs) and other pertinent stakeholders;
- b) Separate meetings were held with women so their voices were not constrained by men and other powerful, more dominating sections of the communities;
- c) Individual meetings and focus group discussions (FGDs) were held formally and informally, as and when the opportunity or need arises during field activities;
- d) The Consultation, Participation and Information Disclosure (CPID) activities have been recorded and documented comprehensively, including participants lists, photographs and minutes of the key issues addressed, agreements reached, observations made in the field and outstanding issues that need to be addressed;
- e) The consultations were carefully documented in the LARP and indicated in **Annex-I** as list of attendance sheet of participants; and
- f) The Project Resettlement staff and consultants prepared a Resettlement Information Booklet (RIB) for all DPs in the local Urdu language with concise information on all of the key aspects of the resettlement process, such as a subproject description, legal framework, institutional arrangements, grievance redress mechanism, general eligibility and entitlement provisions, assessment of impacts, compensation payment strategy, and the timing of resettlement activities is given as Annex-A.

4.3 Stakeholders' Perceptions About the Project

57. As the construction of the pumping station will have the impacts on the local population. Despite the impacts, the affected communities did not have a hostile attitude towards the subproject although there were some concerns regarding the compensation rate as the government rates are normally in the lower side.

58. The meetings were attended by the DPs and general public. The list of the participants is attached as **Annex-I** of the report. In addition, the individual meetings were held with the DPs for

census, socio-economic survey, officials of various departments like revenue, agriculture, forest and building and MC etc.

Table 4.1: Details of Consultation Meetings

S · N o	Date	Place	No. of Participants	Participants
1	18-03-2020	MC office	23	Meeting with design team, MC, District administration, PHE, PICIIP
2	10-06-2020	Chak Kala	20	Meeting with DPs and neighboring farmers

59. The participants were encouraged to express themselves and engaged in detailed discussion on impacts, compensation, consultation, awareness, and level of community support for the subproject. Relevant concerns were raised by the participants, particularly with regard to compensation and entitlement package. The main concern was the adequacy and timely payment of compensation to displaced persons. The concerns are summarized in Table 4.2.

Table 4.2: Concerns of DPs and Responses by Consultant

S#	Concerns of DPs	Response from Consultant	Action to be Taken	Responsibility
1	Why the government selected this particular area for the subproject which is prime agricultural land.	This site is suitable for the subproject as reported by the design consultant (NESPAK)	Different design options were considered to minimize the impact of the subproject on the local population. Now, the mitigation measures in the form of compensation at the replacement cost of the lost structures and livelihood assistance are proposed to avoid or minimize the adverse impacts of the subproject.	PMU-LG&CD & EPCM
2	The government will not give the market rate of their lost land and structures, as their assets are much productive while the government fixes the rate on lower side.	The government intends to purchase the land and non-land assets on the basis of current market value of lost assets.	The structure will be compensated as per the replacement cost of the lost structure.	PMU-LG&CD and revenue
3	Status of Approved rate by the BOR	Board of Revenue has approved the DPAC rates.	Following efforts were made to ensure that fair land compensation rate will be offered to the DPs: <ul style="list-style-type: none"> • BOR advised the DC/DPAC to reassess the land value as the current rate falls on lower side; • Latest transaction records are being collected to provide the basis for the market rate; • DPs are advised (during the consultation meetings) to provide evidence for the latest market rate of land. • The replacement cost was determined through the Independent Valuation Study conducted by an Independent Valuer, ANDERSON CONSULTING (PVT) LTD (SBP accredited valuers) during November 2020 to April, 2021 	ADB, PMU-LG&CD,

4	The construction work is usually getting delayed; eventually their livelihood will be disturbed.	The contractor will be given the timeline to complete the work and will be supervised by the consultant and compliance will be ensured. .	The timeline will be strictly observed and in case of any delay in the completion of work, penalty will be imposed on the contractor.	PMU-LG&CD, CIU CSC & Contractor
5	Provision of jobs for skilled and qualified local should be accepted as the right of inhabitants of area	Priority of jobs will be given to local inhabitants on merit basis by following the codal procedures.	Special clause added in the contract of contractor to ensure full compliance.	PMU-LG&CD, CIU CSC & Contractor
6	Chances of some environmental effects like noise/vibration and dust emissions to the nearby community.	The contractor will be bound to implement the measures in this regard by putting clause in his contract	Special clause is added in the contract of the contractor to ensure the full compliance. This issue is already included in the IEE and corresponding mitigation measures have been added.	PMU-LG&CD, CIU, CSC, Contractor & Environment Expert
7	Is there any forum for the complaint registration?	GRM has already been established to address the complaints of the DPs who will have the complete access over it.	A multi-tiers GRC has already been notified and the detailed GRM procedure is given in section 9 of this LARP document)	PMU-LG&CD, CSC & Contractor

S#	Concerns of DPs	Response from Consultant	Action to be Taken	Responsibility
8	The movement towards the Masjids, School and hospitals should not be disturbed.	Special instructions will be given to the design consultant followed by the contractor to avoid the disturbance of these critical places.	Alternate route will be provided to avoid the disturbance and the issue will be discussed in the construction management plan. GRM is established to address the local complaints	PMU-LG&CD, CIU CSC & Contractor
9	The subproject will cause the dismantling of field channels and access routes	In case of disturbance of any field channel and access route the subproject will provide the alternate route and field channel.	The point was discussed with the design consultant. The contractor is bound to ensure the fully functioning of the field channels and will be managed/ensured through construction management plan. DPs will approach to GRC in case of non-compliance. As per the approved IEE, the project does not require an alternative field channels, access routes and the restoration of the old channels and routes.	PMU-LG&CD, CIU EPCM, Environment Expert & Contractor
10	Any payment schedule to DPs	The disbursement of payment assessed under DPAC has been started to DPs. The resettlement assistance cost and Differential cost assessed by IVS will be started once the LARP is approved.	The payment of differential will be commenced in September while the payment is expected to be completed to all the DPs by the end of October, 2021.	PMU-LG&CD and revenue
11	How much time will the Government give them (DPs) for relocation? Is there any assistance for shifting the material?	DPs will be given one-month notice for dispossession of their assets after receiving their compensation, even the transportation/shifting allowance will be provided to shift their stuff/material like delivery pipe, motor pump and salvage material of the room.	The government, PMU will give DPs 30 days' time period as agreed here in the consultation meetings and that can be extended with consensus. Similarly, reasonable amount will also be given to shift their salvage material to another place.	PMU-LG&CD & CIU
12	The DPs who got the loan on land and after land acquisition who	DPs point is well noted and will take up with the concerned officials.	The government will pay the interest of the remaining loan amount	PMU-LG&CD & CIU

4.4 Meetings with the Government Officials

60. A series of meetings throughout the project period were held at detailed design stage with the Forest, Building, Agriculture and Revenue for the following purposes.

- i. Losses assessment survey;
- ii. Workout the compensation cost of private assets; and
- iii. Facilitation to conduct the consultation meeting with the DPs.

61. **Outcome of the Meetings:** The support provided by the government departments is as follows;

- i. Provide an appropriate and accurate assessment survey;
- ii. Compensation value as per the replacement cost of the lost assets;
- iii. Provide support to field staff during the field survey; and
- iv. Disburse compensation payment to DPs in a timely manner.

4.5 Gender Involvement in the Consultation Process

62. According to ADB's safeguard policy statement, the consultation process must be gender inclusive and responsive and tailored to the needs of disadvantaged and vulnerable groups. To explore gender related issues, female staff were included in the team. Formal meetings with women were held to explore their needs, problems and priorities related to the sub- project execution. In addition, individual interviews were also held with the affected women to effectively involve them in the planning process.

63. Women DPs actively participated in the meetings and came up with several issues especially the loss of business and provision of facilities for women in the subproject.

4.5.1 Fears and Concerns About the Project

64. A few women DPs (among the affected households) were un-aware about the subproject. Their views are mentioned below;

- i The proposed subproject will cause the loss of their productive and precious assets, but they will not be compensated as per the as per the replacement cost of their lost assets;
- ii Special care/assistance should be provided to ensure timely compensation of their lost assets;
- iii The movement of working women and female students will be disturbed during the construction work; and
- iv Jobs will not be provided to the local people during the construction, and their children will remain jobless.

4.5.2 Responses to the Fears and Concerns Raised by Women

65. According to SPS, 2009 and the approved LARF, the compensation will be provided as per the replacement cost of the lost assets. Regarding the local movement during the construction stage, alternate routes will be provided, and contractor will be bound to compliance through the construction management plan. Jobs will be provided to the local people on priority basis and the contractor will be contractually bound to ensure full compliance.

4.6 Disclosure of LARP

66. The PMU and CIU is responsible to ensure that all Resettlement information are properly and meaningfully disclosed to all the DPs in local language (Urdu), their concerns are addressed, and necessary changes are made in the design for this purpose.

67. For transparency in the LARP implementation process and for further active involvement

of DPs and other stakeholders, information will be disseminated through the disclosure of approved LARP document in the local language. The SPS 2009 requires that all reports are made available to subproject displaced persons and other stakeholders and to public at large. The approved LARP will be available on the websites of PMU-LG &CD and ADB for disclosure purpose.

68. The following steps will be undertaken for disclosure of LARP:

- i The final Land Acquisition and Resettlement Plan will be disclosed to DPs in local language;
- ii An information booklet containing summary of DPs compensation and assistance prepared specifically for this purpose. This information booklet translated into Urdu (Provided as Annex-A) and distributed to all the displaced Persons (DPs) and other stakeholders by the subproject Office on June 12, 2020.
- iii Enable the DPs to read it by themselves and be aware of their entitlements, unit rates of compensation/income restoration and rehabilitation assistance and payment procedures available for various types of DPs as given in the Entitlement Matrix;
- iv In addition, the information regarding the grievance redress mechanism also provided in the booklet; and
- v A schedule explaining the date, time and venue for disbursement of compensation and livelihood assistance will be prepared in local language and distributed to all DPs.

SECTION 5

LEGAL FRAMEWORK

69. This section describes national laws and regulations that apply to the project, identifies gaps between national laws and ADB's policy requirements and discusses the project policy to be followed.

5.1 National Legal Instruments

5.1.1 Constitution of the Islamic Republic of Pakistan

70. The Constitution of Pakistan (1973) clearly addresses the protection of property rights (Article 24) that asserts that “no person shall be compulsorily deprived of his property save in accordance with law” and “no property shall be compulsorily acquired or taken possession of save for a public purpose, and save by the authority of law which provides for compensation” therefore and either fixes the amount of compensation or specifies the principles on and the manner in which compensation is to be determined and given. Further, Article 4 (sub-clause/a of 1) reiterates the legislative right of the people by stating that: “No action detrimental to the life, liberty, body, reputation or property of any person shall be taken except in accordance with law.

5.1.2 National Legislation

71. In the absence of a specific resettlement policy, the Land Acquisition Act (LAA) of 1894 is the de-facto legal instrument governing resettlement and compensation to DPs. However, it does not provide consideration to social, cultural, economic, and environmental conditions associated with and affected by resettlement. Although LAA lays down detailed procedures for acquisition of private properties for public purposes and compensation, it does not extend to resettlement and rehabilitation of persons as required by donor agencies including the ADB. Further, experience in other projects has established that compensation stipulated in the law may not be adequate to provide for equal or enhanced living status to resettle DPs.

5.1.3 Pakistan’s Law and Regulations on Land Acquisition and Resettlement

72. The law deals with matters related to the acquisition of private land and other immovable assets that may exist on it when the land is acquired for public purpose. The LAA 1894 lays down definite procedures for acquiring private land and payment of compensation. Here in this project, land acquisition is involved, as per design all kinds of construction activities will be carried out within the acquired private land, hence Land Acquisition Act (LAA) will apply here. It comprises of 55 sections pertaining to area notifications and surveys, acquisition, compensation and apportionment awards and disputes resolution, penalties and exemptions. A few relevant sections were synthesized from the Land Acquisition Act 1894, are summarized below (Table 5.1).

Table 5.1: Relevant Sections of the Land Acquisition Act, 1894

Sections of Act	Salient Features of the Sections
Section 4	Publication of preliminary notification and power for conducting survey
Section 5	Formal notification of land needed for a public purpose. Section 5a covering the need for enquiry
Section 6	The Government makes a more formal declaration of intent to acquire land.

Sections of Act	Salient Features of the Sections
Section 7	The Land Commissioner shall direct the Land Acquisition Collector (LAC) to take order the acquisition of the land
Section 8	The LAC has then to direct the land to be marked out and measured
Section 9	The LAC gives notice to all DPs that the Government intends to take possession of the land and if they have any claims for compensation then these claims are to be made to him at an appointed time
Section 10	Delegates power to the LAC to record statements of the DPs in the area of land to be acquired or any part thereof as co-proprietor, sub-proprietor, mortgage, and tenant or otherwise.
Section 11	Enables the Collector to make enquiries into the measurements, value and claim and then to issue the final "award". The award includes the land's marked area and the valuation of compensation.
Section 16	When the LAC has made an award under Section 11, he will then take possession and the land shall thereupon vest absolutely in the Government, free from all encumbrances.
Section 17	In cases of urgency, whenever the Government can take possession of any land needed for public purposes or for a Company. Such land shall thereupon vest absolutely in the Government, free from all encumbrances: But this section will not apply at this project.
Section 18	In case of dissatisfaction with the award, DPs may request the LAC to refer the case onward to the court for a decision. This does not affect the Government taking possession of land.
Section 23	The Collector announces the award of compensation for the owners after necessary enquiries and compensation for acquired land is determined at its market value plus 15% in consideration of compulsory nature of the acquisition for public purposes.

5.2 ADB's Safeguard Policy Statement 2009

73. The SPS 2009 is based on the following objectives: to avoid involuntary resettlement wherever possible; to minimize involuntary resettlement by exploring project and design alternatives; to enhance, or at least restore, the livelihoods of all displaced persons in real terms relative to pre-project levels; and to improve the standards of living of the displaced poor and other vulnerable groups. The following principles are applied to reach the objectives:

- i **Screen the project** early on to identify past, present and future involuntary resettlement impacts and risks;
- ii **Determine the scope of land acquisition** and resettlement planning through a survey and/or census of displaced persons, including a gender analysis, specifically related to resettlement impacts and risks;
- iii **Carry out meaningful consultations** with affected persons, host communities, and concerned non-government organizations. Inform all displaced persons of their entitlements and resettlement options. Ensure their participation in planning,

implementation, and monitoring & evaluation of resettlement programs. Pay particular attention to the needs of vulnerable groups, especially those below the poverty line, the landless, the elderly, women and children, and Indigenous Peoples, and those without legal title to land, and ensure their participation in consultations. Establish a grievance redress mechanism to receive and facilitate resolution of the affected persons' concerns. Support the social and cultural institutions of displaced persons and their host population. Where involuntary resettlement impacts and risks are highly complex and sensitive, compensation and resettlement decisions should be preceded by a social preparation phase;

- iv **Improve, or at least restore**, the livelihoods of all displaced persons through (i) land-based resettlement strategies when affected livelihoods are land-based where possible, or cash compensation at replacement costs for land when the loss of land does not undermine livelihoods, (ii) prompt replacement of assets with access to assets of equal or higher value, (iii) prompt compensation at full replacement cost for assets that cannot be restored, and (iv) additional revenues and services through benefit sharing schemes where possible;
- v **Provide physically and economically** displaced persons with needed assistance, including the following: (i) if there is relocation, secured tenure to relocation land, better housing at resettlement sites with comparable access to employment and production opportunities, integration of resettled persons economically and socially into their host communities, and extension of project benefits to host communities; (ii) transitional support and development assistance, such as land development, credit facilities, training, or employment opportunities; and (iii) civic infrastructure and community services, as required;
- vi **Improve the standards** of living of the displaced poor and other vulnerable groups, including women, to at least national minimum standards. In rural areas, provide them with legal and affordable access to land and resources; in urban areas, provide them with appropriate income sources and legal and affordable access to adequate housing;
- vii **Develop procedures** in a transparent, consistent, and equitable manner if land acquisition is through negotiated settlement to ensure that those people who enter into negotiated settlements will maintain the same or better income and livelihood status;
- viii **Ensure that displaced** persons without titles to land or any recognizable legal rights to land are eligible for resettlement assistance and compensation for loss of non-land assets;
- ix **Prepare a resettlement plan** elaborating on displaced persons' entitlements, the income and livelihood restoration strategy, institutional arrangements, monitoring and reporting framework, budget, and time-bound implementation schedule;
- x **Disclose a resettlement plan** or the compensation matrix, eligibility criteria or rates determined for the affected land, structures, trees etc., including documentation of the consultation process in a timely manner, before project appraisal, in an accessible place and a form and language(s) understandable to affected persons and other stakeholders. Disclose the final land acquisition and resettlement plan and its updates to affected persons and other stakeholders;
- xi **Conceive and execute involuntary resettlement** as part of a development project or program. Include the full costs of resettlement in the presentation of project's costs and benefits. For a project with significant involuntary resettlement impacts, consider implementing the involuntary resettlement component of the project as a stand-alone operation;
- xii **Pay compensation** and provide other resettlement entitlements before physical or economic displacement. Implement the land acquisition and resettlement plan under close supervision throughout project implementation;
- xiii **Monitor and assess resettlement outcomes**, their impacts on the standards of living of displaced persons, and whether the objectives of the land acquisition and resettlement plan

have been achieved by taking into account the baseline conditions and the results of resettlement monitoring; and

xiv **Disclose** monitoring reports.

5.3 Comparison of Key Principles and Practices of Pakistan’s LAA and ADB’s IR Safeguards-SPS 2009

74. Table 5.2 below discuss the reconciliation measures between two safeguard instruments.

Table 5.2: Measures to Address Gaps Between LAA and SPS

Pakistan LAA 1894	ADB SPS 2009	Measures to Address the Gap on ADB funded projects
<p>Compensation for land and other assets is based on average values and department unit rates that do not ensure replacement market value of the property acquired. However, LAA requires that a 15% compulsory acquisition surcharge supplement the assessed compensation.</p>	<p>DPs are to be compensated for all their losses at replacement cost, including transaction cost and other related expenses, without deducting for depreciation.</p>	<p>Land valuation is to be based on the replacement value with an additional payment of 15%. The valuation for the acquired housing land and other assets is the full replacement costs. This includes fair market value, transaction costs, interest accrued, transitional and restoration costs, and any other applicable payments, if any. Depreciation of assets and structures will not be taken into account for replacement cost. The differential between BOR rates for compensation of land and structure losses and replacement cost rates as assessed by qualified and experienced experts will be paid by the project</p>
<p>No provision for resettlement expenses, income/livelihood rehabilitation measures or allowances for displaced poor and vulnerable groups.</p>	<p>Requires support for rehabilitation of income and livelihood, severe losses, and for vulnerable groups.</p>	<p>Provision will be made to pay for resettlement expenses (transportation and transitional allowances), compensate for loss of income, and provide support to vulnerable persons and those severely impacted (considered to be those losing more than 10% of their productive assets).</p>
<p>Lack of formal title or the absence of legally constituted agreements is a bar to compensation/rehabilitation. (Squatters and informal tenants/leaseholders are not entitled to compensation for loss of structures, crops)</p>	<p>Lack of formal title is not a bar to compensation and rehabilitation. All DPs, including non-titled DPs, are eligible for compensation of all non-land assets.</p>	<p>Squatters, informal tenants/leaseholders are entitled to compensation for all non-land assets like loss of structures, crops and trees and livelihood and for relocation assistance.</p>

Pakistan LAA 1894	ADB SPS 2009	Measures to Address the Gap on ADB funded projects
<p>Land acquisition and compensation process is conducted independently by the Land Acquisition Collector following a lengthy prescribed legal and administrative procedure. There are emergency provisions in the procedure that can be leveraged for civil works to proceed before compensation is paid.</p>	<p>Involuntary resettlement is conceived, planned and executed as part of the project. Affected people are supported to re-establish their livelihoods and homes with time-bound action in coordination with the civil works. Civil works cannot proceed prior to</p>	<p>Respective EAs will prepare land acquisition and resettlement plans, as part of subproject preparation based on an inventory of losses, livelihood restoration measures, Pakistan law and principles enumerated in SPS. Where gaps exist in the interpretation of Pakistan law and resettlement practices, requirements of ADB's involuntary resettlement policy will prevail. Civil works may only proceed when the LARP approved by ADB is fully implemented with all APs fully compensated and validated by an ADB acceptable independent/external monitoring consultant before the start of construction work in any subproject.</p>
<p>No convenient grievance redress mechanism except recourse of appeal to formal administrative jurisdiction or the court of law</p>	<p>Requires the establishment of accessible grievance redress mechanisms to receive and facilitate the resolution of DPs' concerns about displacement and other impacts, including compensation</p>	<p>EAs will establish easily accessible grievance redress mechanism available throughout project implementation that will be widely publicized within respective project area and amongst the DPs.</p>

5.4 Project Resettlement Policy

- As required under SPS, 2009, the subproject objectives are to achieve, avoid, minimize or mitigate involuntary resettlement impacts causing physical and/or economic displacement;
- Meaningful consultations with all stakeholders are continued. Particular attention is paid to the needs of vulnerable groups, especially those below the poverty line, the landless, the elderly, women and children, and Indigenous Peoples, and those without legal title to land, and their participation in consultations is ensured;
- Final LARP is submitted to ADB for review/approval, endorsed by the borrower/client and after finalization it will be disclosed on the ADB website;
- A grievance redress mechanism with representation of all stakeholders has been established and functional since May, 2020;
- A comprehensive social impact assessment has been done , involving (i) a census of all displaced persons and an inventory of their lost assets (ii) a socio-economic survey of a sample of at least 10 percent of general population of the area but all DPs need to be surveyed 100% basis for the census, impact severity, and vulnerability (worked out on the basis of quantum of impact and income analysis respectively) purpose, and (iii) a detailed measurement survey and valuation of all lost assets as well as an assessment of lost incomes will be carried out;

- An eligibility cut-off date is declared and formalized on the date of completion of social impacts assessment survey and census of DPs;
- i. As per LARF para 81: The compensation will be made as per the replacement cost of the lost land and non-land assets. This includes fair market value, transaction costs, interest accrued, transitional and restoration costs, and any other applicable payments, if any. Depreciation of assets and structures will not be taken into account for replacement cost. The differential between BOR rates for compensation of land and structure losses and replacement cost rates as assessed by qualified and experienced experts will be paid by the project from loan amount with a minor change in the scope of work. This arrangement has been already approved in the 10th Project steering committee meeting and further reflected in the ADB mission findings of March 2021.
- Incomes and livelihood sources lost, including interruption of business activities and employment, is fully compensated at per market value. DPs permanently losing incomes and livelihood sources of vulnerable DPs are entitled to credit, training and employment assistance to maintain or improve their livelihoods;
- All DPs are provided opportunities to share development benefits of the subproject, if feasible;
- DPs are not physically or economically displaced before compensation has been paid, other entitlements have been provided and an income and livelihood program is in place; and
- The effectiveness of the implementation of LARP and the impacts of its measures on the livelihoods of the DPs are monitored internally by the PMU and externally through hiring of (ADB accepted) EMA during LARP implementation.

5.5 Legal and Administrative Impediments

75. Both the LAA (1894) and ADB SPS (2009) require that DPs are compensated before displacement, but allow a mechanism for dealing with cases with legal and administrative impediments for disbursing compensation payments to DPs provided that sufficient good-faith efforts are demonstrated in (a) contacting, notifying and assisting DPs, and (b) delivering compensation payments. In this context ADB prepared guidance notes (Annex-M) to elaborate the efforts required to be made to address the (i) the cases with legal and administrative impediments to payment of compensation to DPs (ii) the requirements under the LAA related to cases with legal and administrative impediments to payment of compensation to DPs and (iii) when can good-faith efforts be considered as sufficient and how to document that good-faith efforts.

76. The EA will have to take appropriate actions to demonstrate that sufficient good-faith efforts have been made toward addressing the legal and administrative impediments to payments those are listed as under;

- i Land Title Disputes or Litigations among the DPs or Court References Against Award;
- ii Absentee Landowners (DPs Living Overseas or in Other Parts of the Country);
- iii DPs with Pending Inheritance Mutations;
- iv DPs Who are unable to Alienate the Acquired Asset; and
- v DPs with Meager Compensation.

SECTION 6

ENTITLEMENTS ASSISTANCE AND BENEFITS

6.1 Eligibility

60. Eligible for compensation, relocation and livelihood assistance entitlements are the persons who were on the project site prior to the cut-off date and who are physically and/or economically displaced due to permanent or temporary loss of land, structures and/or livelihood, whether full or partial, as a consequence of subproject execution. Such eligible DPs include the following:

- i All land owner DPs losing land or non-land assets, i.e., crops and trees whether covered by legal title or traditional land rights;
- ii Non-titled occupants of land, such as squatters or encroachers are entitled to compensation of non-land assets only;
- iii DPs losing the use of structures and utilities, including titled and non-titled owners, registered, unregistered, tenants and leaseholders plus encroachers and squatters;
- iv Business owners DPs whether informal register or register under national law;
- v Employees of private or public businesses or enterprises, whether registered under national law or informal;
- vi Distinct group of people who may suffer disproportionately from resettlement effects. The SPS, 2009 defines vulnerable groups as households below the poverty line, the elderly, those without legal title to assets, landless, women, children and indigenous people. The vulnerable displaced persons were identified through the impact assessment; and
- vii In the event of relocation, all DPs will receive transitional and other support to re- establish shelter and livelihoods.

6.1.1 Cut-off Date

61. In accordance with the ADB SPS (2009) and LARP, the compensation eligibility will be limited by a 'cut-off date' for the proposed sub-project on the day of the completion of the "census" survey for the impact assessment in order to avoid an influx of outsiders. The affected persons who settled in the vicinity of the sub-project area after the cut-off date will not be eligible for compensation.

62. The census was completed on May 27, 2021. Hence, May 27, 2021 has been formally established as the cut-off date for the impacts and compensation entitlements of WWTP Sialkot. The cut-off date was communicated to the DPs through consultation meetings. The persons occupy in the area after the cut-off- date will not entitle for any compensation.

6.2 Independent Valuation Study

63. ADB is supporting the PICIIP in funding a number of subprojects under PICIIP Pakistan. Challenges in establishing a replacement cost for lost assets have been experienced based on the complaints received from the affected persons on low market rate adopted for the assessment of affected land. Consequently, PMU assigned the task to independent valuers M/s Anderson Consulting (Pvt.) Limited (SBP accredited valuers) who undertook an independent valuation study (IVS) to determine how the replacement cost should be appraised for the land and non-land assets and also to review the land acquisition and assessment process conducted by the BOR. SPS guidance for establishing replacement cost consist of the following, i) fair market value, ii) transaction cost, iii) interest accrued, iv) transitional and restoration costs and, v) other applicable payment, if any. Where market conditions are absent or in a formative stage, the borrower and client will consult with the displaced persons and host population to obtain adequate information about recent land transaction, land value by types, land title, land use, cropping pattern and crop

production, availability of the land in the project area, regions, and other related information.

64. To ensure the compliance with the ADB's safeguard policy, a central part of the study consisted of determining how the value of land and other assets could be assessed to meet the policy requirements of ADB and also satisfy the legal requirement of Pakistan.

65. The IVS was conducted between December 2021 to April, 2021 to meet the requirements of LARF for assessing the replacement value of the land and other affected assets (Referred Para 81 of LARF). The necessary investigations for the IVS were conducted independently in the field and without influence from any third parties in any way.

66. The land prices fixed under LAA were examined using the following investigation methodology:

- i LAA market rate based on registered land transactions;
- ii Physical aspects: Area: location of affected land and accessibility;
- iii Land use and quality: Quality of Land, Cultivation pattern and sources of water;
- iv The value of agricultural land was assessed in an open market considering the following aspects: land use, cropping patterns, yield, irrigation pattern, location, and topography;
- v Construction costs of all types of construction material used; and
- vi Amenities distance from the population/nearest town.

67. The findings of the IVS reveals that the replacement cost was assessed for the valuation of the lost assets, rate assessed by the valuator are on higher side compared to rate assessed by the DPAC/BOR. A comparative analysis of the rates by BOR and IVS are reflected in table 6.1 – 6.5 below, the IVS study report is attached as Annex-N of the report.

6.3 Entitlements

68. As per Table 6.1 -6.5, the Independent Valuation Study (IVS) worked out the differential of 9% for the land affected in Tokanawali (Residential Main Road) comprising of 0.031 Acre, similarly differential of 7% for the land affected in Tokanawali (Residential Off Road) comprising of 0.256 Acre, Whereas, differential of -9% is worked out for the land affected in Tokanawali (Agricultural Off road) comprising of 1.218 Acre which will be considered 0% on the basis of highest value prevailing between DPAC and IVS. Furthermore, there is a differential of 17% for the land affected in Chitti Shiekhan and Chak Kala (Phase 1) comprising of 32.743 Acres and 120.093 Acres respectively. Land Acquired in phase 2 the Independent Valuation Study (IVS) worked out the differential of 37% for the land affected in Chak Kala (Agricultural Off Road) comprising of 64.94 Acres, similarly differential of 29% for the land affected in Chitti Shiekhan (Residential Off Road) comprising of 10.85 Acres, Whereas, differential of 25% is worked out for the land affected in Kapoor Wali (Agricultural Off road) comprising of 9.15 Acres. The crop compensation was not assessed by agricultural department, however, IVS assessed crop compensation on the basis of two seasonal crops (Summer and Winter) i.e Rs.31,707,647. Whereas, differential cost of trees is Rs. 215,195 (41.61%), Building structures is Rs. 1,824,817 (99.74%), and Tube well/Hand pump/bore Rs. 420,500 (3.52%). The total differential in the form of land and non-land assets of this subproject is Rs 163,892,701/- (27.97%) worked out on the basis of highest rate prevailing between DPAC and IVS. This includes all transaction costs, interests, labor, restoration costs and all applicable payments.

6.3.1 Compensation and Entitlement Policy

69. Compensation and entitlements have been determined on the basis of SPS 2009, and requirement of Para 81 of the approved LARF. Table 6.6 provides an Entitlement Matrix for different types of losses assessed during the census survey, Inventory of the Losses and socio-economic survey It also covers the provisions for any unanticipated impacts arising during subproject implementation. Compensation and other assistances will be paid to DPs prior to dislocation and dispossession from acquired assets. In case, the payment is delayed more than a year from the date of valuation, the values will be indexed taking into account the annual inflation rate before payment to DPs.

The amount for three months will be equal to RS. 20,000 X 3 = 60,000 Provision of re-training, job-placement, additional financial grants and micro-credit for equipment and buildings, as well as organizational/logistical support to establish DP in alternative income

				generation activity
13	Severely affected allowance	Stability	936 DPs (land owners including non- titled land user) losing 10% or more of their productive assets)	<ul style="list-style-type: none"> Each DP will be paid one-time cash compensation equal to minimum wage rate i.e., Rs.20, 000 as fixed by the Federal Government for the year 2020-21. The amount for three months will be equal to Rs. 20,000 X 3 = 60,000.
14	Maintenance of access to means of livelihood	Avoidance of obstruction by project facilities	All 04 DPs	Provide un-interrupted access to agricultural fields, business premises and residences of persons in the project area.
15	Unanticipated Impacts	As and when identified	All DPs facing impact	Dealt with as appropriate during subproject implementation according to the ADB Safeguard Policy Statement, 2009 and compensation provisions as defined in this entitlement matrix.

SECTION 7

INCOME RESTORATION AND REHABILITATION

7.1 General

70. The objective of income restoration program is to restore the income generating capacity of the displaced persons experiencing impacts caused as a result of the project. The livelihood restoration activities will comply with ADB SPS 2009, which requires improving, or at least restoring, the livelihoods of all displaced persons and improving the standards of living of the displaced vulnerable groups. The project will also seek to maximize project related work opportunities to those in local communities including those affected by the loss of income sources. Opportunities to improve the livelihoods of women will also be mainstreamed in various project initiatives, including in the income restoration program of the resettlement plan. The proposed income restoration program will provide productive employment opportunities to DPs and locals in the subproject's work on preferential basis.

7.2 Income Restoration Program

71. The project considers providing a mix of livelihood assistance aiming income restoration to pre-project levels. List of DPs receiving different types of allowances is attached as **Annex-J**. The income restoration program to be provided to DPs includes the following assistance:

7.3 Livelihood Restoration

- **Livelihood Disturbance Allowance:** Cash compensation for livelihood restoration will be paid based on officially designated minimum wage rate, i.e. Rs.20,000 as fixed by the Federal Government for the year 2020-21. The amount for three months will be equal to RS. 20,000 X 3 = 60,000.
- **Severely Affected Allowance:** Each DP will be paid one-time cash compensation equal to minimum wage rate i.e. Rs.20,000 as fixed by the Federal Government for the year 2020-21. The amount for three months will be equal to Rs. 20,000 X 3 = 60,500.
- **Vulnerability Allowance:** One-time subsistence allowance to vulnerable DPs for income loss to mitigate impact on income for the duration of interruption in source of income for a period of 03 months based on monthly minimum wage rate Rs.20,000X3= 60,000/- of Govt.
- **Jobs to DPs and Locals:** All eligible DPs and locals (preference given to DPs) will be provided employment opportunities created by construction of Waste Water Treatment Plant, PICIIP-12. Hiring of DPs and locals will be ensured through inserting a contract clause in the construction contract that will be monitored by PMU/CIU and verified by EMA. The DPs and locals will also preferably get the job opportunity at the project office (if eligible in case the technical skill is required. The status of hiring of DPs and locals will be reported in project's monthly/quarterly progress and monitoring of LARP implementation reports.
- **Training Opportunities:** PMU will launch a skill development and livelihood restoration program for the DPs keeping in view the need of market and willingness of the DPs. The PMU with the coordination of an Agriculture department and vocational training institute will provide training to the DPs. The training will include the agriculture extension services for the efficient use of irrigation water, enhancing the agriculture productivity, human skill development on electronic work, embroidery, stitching cloth, and cooking. The training will be organized in coordination with the DPCs in the local district council that is easily accessible for the DPs. Transportation costs will be reimbursed, Lunch and tea breaks will be provided and the course will be given at no charge to the participants. An attendance certificate will be provided following the successful completion of the course. PMU will implement the training during the subproject execution.

SECTION 8

RESETTLEMENT BUDGET AND FINANCING PLAN

8.1 Introduction

72. In preparing the budget, the costs for land and resettlement have been worked out using the replacement cost of lost assets. The additional assistance for loss of income and transportation is based on the value used in the entitlement matrix. This final budget provides the outlay for different expenditures categories assessed through field surveys carried out during May to June 2020 and updated in September, 2020. The compensation cost worked out as per the land price fixed by District Price Assessment Committee (DPAC), cost for non-land assets was obtained from the concerned departments and livelihood assistance (allowances) were determined as per the market rate and government fixed minimum wage rate for 2020 - 2021 and has been reviewed and finalized by the EA. The assessment carried out by the DPAC is given as **Annex-K** of the LARP. As the legal framework for land acquisition in Pakistan does not permit payment of compensation rates above government (BOR) rates, the assets lost due to project will be assessed according to the principle of replacement cost as outlined in the LARF. The BOR considers average market rate based on registered land transactions as fair market value although this is not compatible with ADB's requirement of replacement cost. Therefore, the difference between BOR and RC was worked out through an independent valuation study by qualified and experienced experts (referred subsection 6.2). In cases where compensation has been already awarded, the BOR, under the prevailing LAA practice, is not authorized to accept or reject any additional amount of compensation (over and above the BOR price). However, CIU will be required to arrange the balance amount and pay to the DPs to comply with the conditions of loan agreements.

8.2 Differential Cost

8.2.1 Approval of the Resettlement Budget

73. All resettlement funds will be provided by the LG & CD. The EA will ensure to use these funds for the disbursement of compensation payment and other assistances. The subproject will also ensure that funds for entitlements under the LARP are fully disbursed among DPs prior to the commencement of civil work. Compensation and resettlement funds will be provided to the DPs by PMU/CIU. Compensation of resettlement to the DPs will be paid before their displacement.

74. The subproject will determine the annual inflation rates to be applied to all cash entitlements. The CSC will assist the PMU in identifying additional loss/s of assets during construction and proposing entitlements for such DPs. These budget revisions will be approved by PMU-LG & CD with the concurrence of the Asian Development Bank.

8.3 Management of Resettlement Budget

75. Detailed implementation procedural guidelines will be required to implement the LARP at the field level. The CIU will follow the implementation procedure after it has been approved by PMU-LG & CD if there is no change in cost, otherwise if the cost is changed, it has to be approved by PMU-LG & CD with concurrence from ADB. The implementation procedure will include definition of various resettlement terms, the entitlements, and detailed procedure for identification of eligible persons for resettlement entitlements of the LARP, preparation of losses and entitlement files of individual DPs, as well as processing payments and disbursements with accurate and up-to-date documentation.

76. All payment to the displaced persons will be paid through cross cheques. Vouchers on payment will be prepared in triplicate, for PMU-LG & CD, and CIU. Payment will be made, and record maintained as per approved implementation guidelines.

8.4 Land Acquisition and Resettlement Cost

77. The Land Acquisition and Resettlement cost was calculated by IVS based on the replacement cost of the lost assets by including (i) fair market value; (ii) transaction costs; (iii)

interest accrued, (iv) labor costs (v) transitional and restoration costs; and (vi) other applicable payments (Detailed calculations are provided in Annex C to Annex-G). The cost obtained from the DPAC and from the concerned departments for land and non-land assets is reflected in **Annex-C** to **Annex-G** and Table 8.1 of the LARP. The total cost worked out is PKR 1,144.10 million (reflected in Table 8.1 and provided category-wise). This budget was worked out based on the final impacts as determined as per final design.

³ The land was acquired in 2 phases and assessment was made by the revenue department. In first phase, 154 acres of land from mouza Tokanawali, Chak Kala and Chitti Shiekhan was acquired. Whereas, in second phase, 84 acres of land was acquired from Chak Kala, Chitti Shiekhan and Kapoor Wali. Under this project land of Chak Kala and Chitti Shiekhan is acquired in both phases having different land assessment made by revenue department due to which same land owners are repeated in both phases and are enlisted accordingly in Annex-C. Hence, there are 1020 DPs are the legal land owners in phase 1 & 2 (without duplication)

GRIEVANCE REDRESS MECHANISM

78. An integrated GRM for environment and social concerns was established at the project level to facilitate amicable and timely resolution of complaints and grievances of the DPs, including local communities regarding the social, environmental, and resettlement aspects of the project.

79. A grievance redress mechanism is already in place since 4th May 2020. The Notifications of Committees are attached as **(Annex-L)**. It is a three tiered structure, i) Grievance Redress Committee at Field Level, ii) Grievance Redress Committee at Commissioner Office Level and iii) Grievance Redress Committee at PMU, Local Government & Community Development Level. The GRM is gender responsive, culturally appropriate, and readily accessible to the stakeholders at no cost and without retribution. The step-wise process of the proposed GRM is summarized below.

80. **Stage 1:** The affected person(s) may submit an oral or written complaint to the GRC at Field Level. The GRC will log the complaint along with relevant details in the community complaint register. The displaced person(s) can directly approach GRC. For each complaint, the GRC must investigate the complaint, assess its appropriateness/eligibility, and identify an appropriate solution. It will provide a clear response within seven working days to the complainant, PMU/CIU and Contractor (where relevant). The GRC will, as appropriate, instruct the responsible entity to take corrective actions. The GRC will review the responsible entity's response and undertake additional monitoring as needed. During the complaint investigation, the GRC will work in close consultations with the Contractors, the CSC Consultants, PMU/CIU and other relevant agencies. The responsible entity should implement the redress solution and convey the outcome to GRC within seven working days.

81. **Stage 2:** If no solution can be identified by the GRC or if the complainant is not satisfied with the suggested solution under Stage 1, the complainant can proceed to stage 2 at City Level (Commissioner Office). The committee will review the case and give the solution within seven days of its submission.

82. **Stage 3:** In case of dissatisfaction of the complainant at stage 2, he/she can proceed to stage 3 at PMU level. Here, the GRC is headed by the Additional Secretary Development. The GRC at PMU level will resolve the complaint/grievance and the agreed action thus determined should be implemented within twenty-one days (if additional time is needed to implement the corrective action, it should be discussed and decided during the meeting).

83. The GRC cannot impede a DP's access to the legal system, according to SPS, Annex 2, para 29. Thus, a DP can approach the courts at any time in accordance with the applicable legal provisions as per Section 18 of Land Acquisition Act 1894.

84. Implementing the GRC's decision will be contractually binding on the contractor.

SECTION 10

INSTITUTIONAL ARRANGEMENTS

10.1 Introduction

85. The Local Government and Community Development Department (LG&CD) of the Government of Punjab is the executing agency for the project. A PMU has been established at provincial level while at the city level, City Implementation Units (CIUs) have been established. The PMU is headed by a Project Director and supported by a team of specialists responsible for liaison and coordination with CIU. Each CIU is headed by a city Manager with support from other wings working closely with city officials to implement the project.

86. PMU will be provided additional support through individual consultants for Project Management and Implementation Support (PMIS). The consultants will assist the PMU and CIU in subproject management, procurement, supervision and safeguard monitoring.

87. In term of LARP implementation, LG&CD, PMU, and CIU Sialkot shall ensure that land and ROW required for the subproject are made available to the contractor in accordance with the agreed schedule and land acquisition and resettlement activities are implemented in compliance with all applicable laws and regulations of Pakistan, ADB's SPS, 2009 and measures in the form of preparation and implementation of LARP followed by the corrective action plan based on the monitoring report.

88. The LG&CD (project executing agency) has overall responsibility for Resettlement functions including preparation, implementation, financing and supervision of all Resettlement tasks and cross-agency coordination. LG&CD will exercise its functions through the Program Management Unit (PMU) and City Implementation Unit (CIU), to be tasked with daily LARP implementation activities.

89. The coordination involved for various institutions for the implementation of LARP include District government (including concerned DC). The detail of team is given below in Table 10.1.

Table 10.1: Defining the roles and responsibilities of various institutions in LARP implementation

S r · N o ·	Institution	Roles and Responsibilities
1	PMU	PMU is the owner of the project therefore it is responsible to manage and ensure safeguard due—diligence and disclosure requirements including LARP and monitoring in accordance with ADB's Safeguard Policy Statement (2009) and government requirements especially LAA 1894.
2	Contractor	Contractor is responsible for the construction works under the social and environment conditions.
3	CSC	CSC is responsible for the overall supervision of the projects and ensures that LARP is implemented in a smooth and timely manner in accordance with the provisions of the LARP.
4	District Administration	Role of district administration is to provide full support and coordination to all stakeholders and keep law and order related to security measures.
5	Community	Local Community is the affected as well as beneficiary of the sub-subproject. Community is responsible to resolve social conflicts and to safeguard their rights.

6	Independent Valuation Expert	Determine how the value of land and other assets can be assessed to meet ADB's policy requirement for replacement cost and also satisfy the legal requirements of Pakistan.
7	ADB	ADB is the donor of the Waste Water Treatment Plant and has a supervisory role.
8	Revenue Department	District Collector/Deputy Commissioner is responsible for the evaluation of the lost assets and disbursement of the compensations to DPs for their lost assets.

10.2 City Implementation Unit (CIU)

90. In the implementation office headed by a city manager, a City Implementation Unit will be established through deploying the requisite staff. The CIU will overall be responsible for LARP functions (through DDR) including preparation, implementation, financing and supervision of all land acquisition and resettlement related tasks and cross-agency coordination. CIU (through CSC) will prepare the implementation procedural guidelines and submit to PMU-LG &CD. For this purpose, the following specialists are proposed within CIU:

- Project Implementation Officer;
- Safeguard Officer;
- M&E Officer;
- MIS Officer; and
- GIS Officer.

10.3 Construction Supervision Consultants

91. The construction supervision consultants will report to CIU/PMU and prepare the implementation program, quality of works, delivery of works, and certify the quantities of work carried out and the payments. The CSC will also help the PMU in project planning and management, quarterly progress reporting, procurement planning, contract management, financial management and overall project management. They will also be tasked to implement the LARP prepared for the subproject. Their scope of work will include but not be limited to the following:

- i. Preparation of database of all the affected households and to review their eligibility and entitlement based on the final LARP;
- ii. Assist in disbursement of compensation and ensure that affected persons are compensated as per the LARP before commencement of civil works
- iii. Distribute the notices to the entitled DPs regarding their payment of compensation
- iv. Provide proper guidance to DPs for the submission of their requests for compensation as per eligibility and entitlement
- v. Facilitate the DPs in compensation payment through the completion of necessary documentation to receive their entitled payments like payment vouchers, opening of bank account and formation of CNIC, etc.;
- vi. Facilitate the DPs in term of resolving the legal and administrative impediments for the compensation payment;
- vii. Help the DPs to put their complaints (if any) in front of GRCs;
- viii. Conduct community consultations and disclosure process throughout the sub-project cycle;
- ix. Assist PMU/CIU in the preparation of progress and monitoring reports.
- x. Review, monitor and evaluate the effectiveness with which the LARP is implemented, and recommend necessary corrective actions to be taken. Advise on corrective measures where necessary to the PMU;

10.4 Grievance Redress Committees (GRCs)

92. Grievance redress committee has been established for addressing conflicts and appeal procedures regarding project design, compensation assessment, eligibility and entitlements followed in the implementation of resettlement activities, and impacts of construction work including the jobs to DPs and local population etc. GRCs will receive and facilitate the resolution of affected persons' concerns and grievances. It explains how the procedures are accessible to affected persons and are gender sensitive. The details are already discussed in section 9 of this LARP.

10.5 District Government

93. District-based agencies have jurisdiction over compensation activities. Revenue Department, most notably Patwari, carry out specific roles such as preparation and verification of the land record. Functions pertaining to compensation of non-land assets rest on Provincial line agencies and their District level offices. Crops compensation pertains to the Department of Agriculture; the compensation for wood trees losses pertain to the Department of Forestry and the building structure will be assessed through the Building and works department.

10.6 Displaced Persons Committee

94. The DPs will be encouraged and mobilized to form a Displaced Persons Committee (DPC). DP representation facilitates communication and information flow among DPs and with other stakeholders. The representatives will closely liaison with Grievance Redress Committees (GRC) formed at PMU, Commissioner Office and field levels. The DPC will meet monthly and on demand from members, due to Land Acquisition and Resettlement planning and implementation issues. The DPC members may elect from among themselves a representative to the GRC or hold elections in a meeting of all subproject DPs. In subprojects with a very small number of DPs, one or two GRM representatives may be elected at one of the first consultation meetings.

10.7 Independent Valuation Expert

95. An Independent Valuation Expert will undertake an independent appraisal of the value of land using international appraisal standards, assess the constraints to carry out such appraisal for IR, compare the valuation method and rates used by BOR/PMU and those based on the international standards and provide the professional advice as to how any issue identified can be addressed to make the valuation as per the replacement cost of the lost assets.

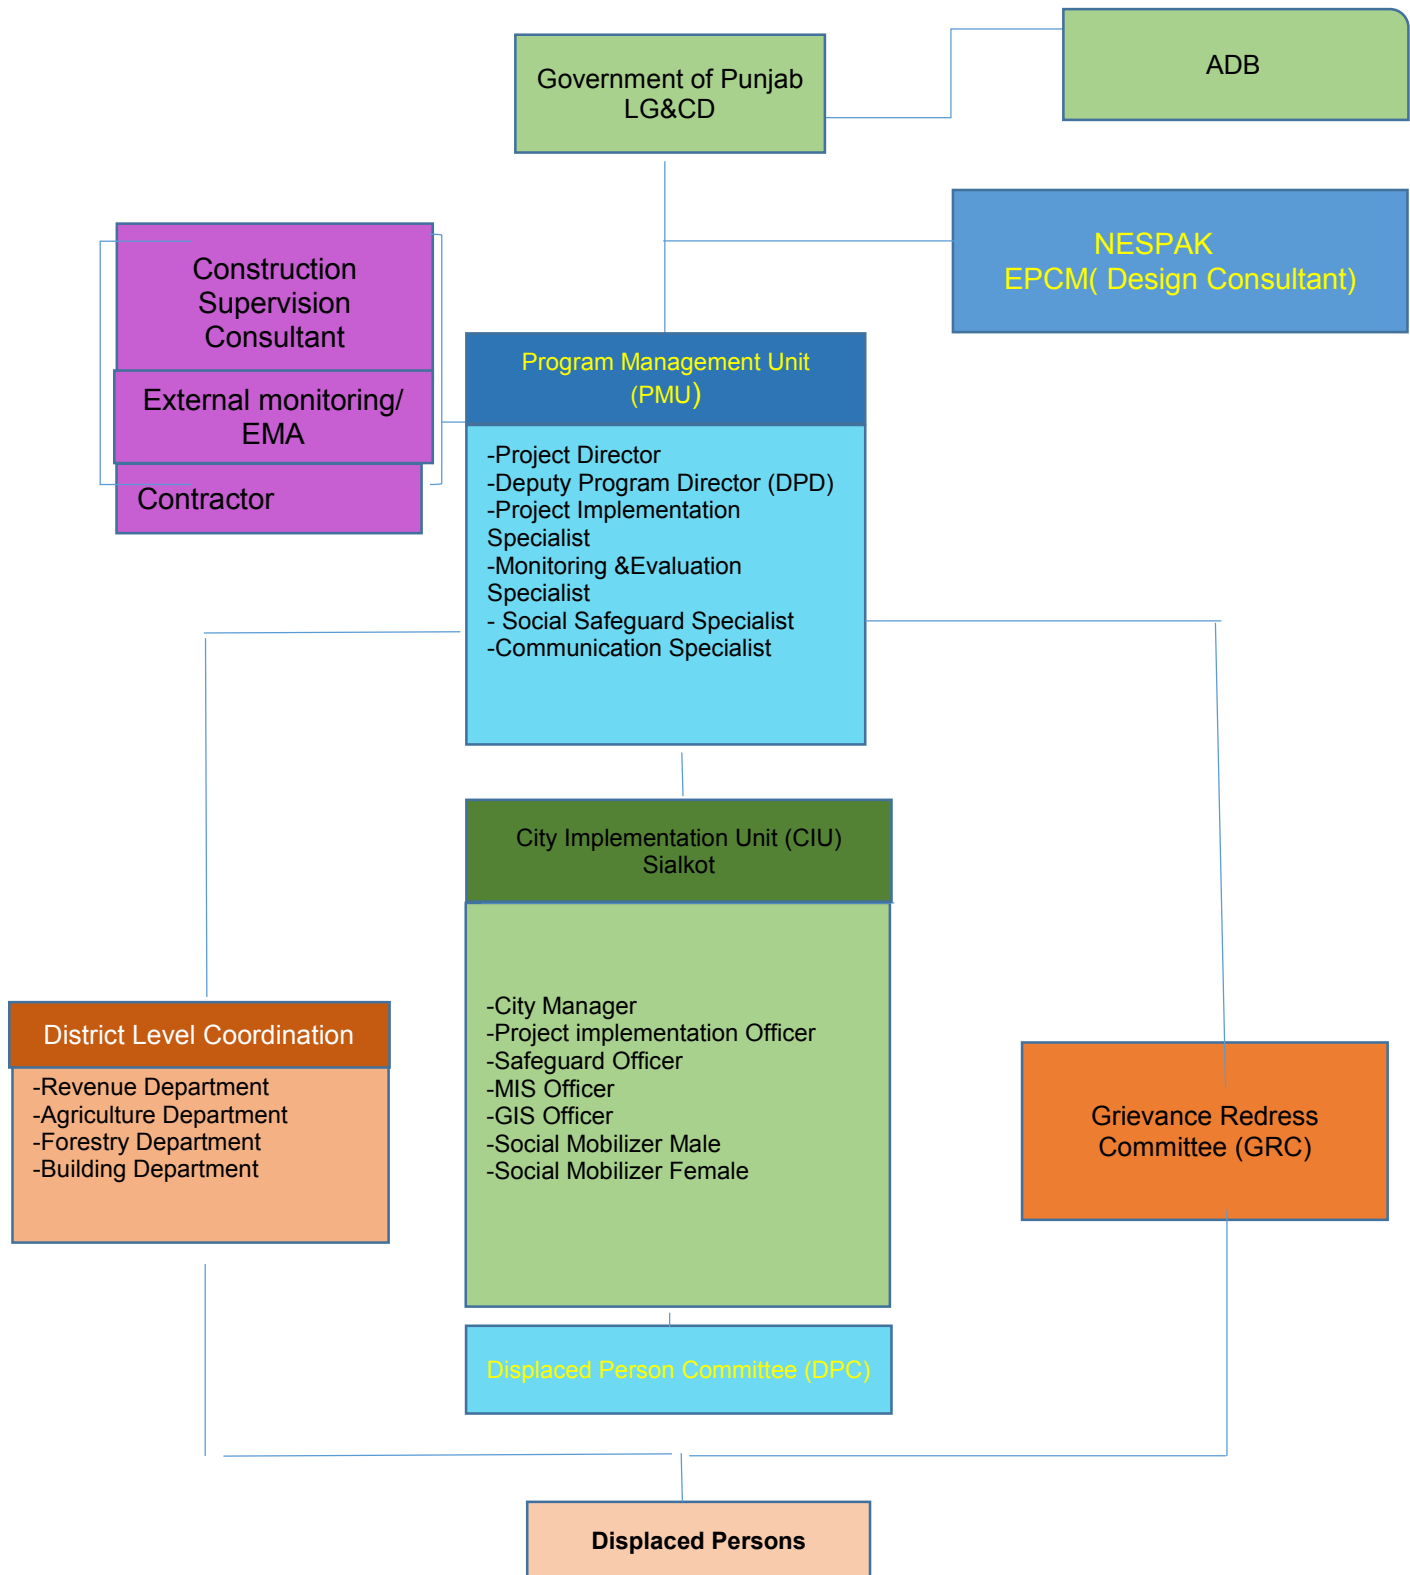

10.8 Asian Development Bank (ADB)

96. ADB reviews LARP and confirms their responsiveness to ADB's safeguards requirements. In cases where these do not meet ADB's requirements, additional assessment and improvement of the LARP will be undertaken. ADB will also conduct periodic social safeguards reviews to verify that land acquisition and Resettlement planning and implementation is being carried out as agreed in this LARP.

10.9 Organizational Chart

97. An Organogram showing the institutional arrangements for the implementation of LARP has been illustrated through a diagram presented in figure below (10.1).

Figure 10.2: Institutional Set-up for the Implementation of Land Acquisition and Resettlement Plan

SECTION 11
IMPLEMENTATION SCHEDULE

11.1 Introduction

98. The implementation schedule has been formulated (in consultation with LG & CD) to accommodate different activities of the project and therefore different times of LAR as necessitated by the civil works. Social preparation, particularly information dissemination and maintaining a constant dialogue with the DPs, will continue by the Executing Agency (EA), Project Management Unit (PMU), City Implementation Unit (CIU) till the completion of sub-project.

99. The relocation of the DPs in the area will be required towards the end of October, 2021 and the schedule has taken these into consideration. The compensation payments if delayed for more than a year after computation will be indexed considering rate of inflation and rates prevailing at the time.

11.2 Sequence of activities for Resettlement Plan Preparation and Implementation

100. The acquisition process and disbursement of payments under land awards is interrelated with LARP preparation and its implementation. For a clear and transparent resettlement process the following sequence of activities as described in Table 11.1 is to be ensured by the PMU-LG&CD.

Table 11.1: LARP Preparation and Implementation Activities/Schedule

11.3 Implementation Schedule

101. The commencement of civil works will be subject to the satisfactory implementation of this Land Acquisition and Resettlement Plan including complete payment of compensation and livelihood assistance and redress of community concerns. Based on the implementation experience of previous projects, it is expected that the implementation of this final LARP for the Waste Water Treatment Plant will be completed till the end of October 2021. The detail of proposed tentative schedule is presented below.

SECTION 12

MONITORING AND REPORTING

12.1 Need for Monitoring and Reporting

102. Monitoring is a periodic assessment of planned activities providing midway inputs. Monitoring and reporting are critical activities in involuntary resettlement which help in the assessment of the implementation progress, rescheduling key actions to meet the objective timelines, early identification of issues, resolving problems faced by the DPs and developing solutions immediately to meet resettlement objectives. In other words, monitoring apparatus is a crucial mechanism for measuring subproject performance and fulfillment of the subproject objectives.

103. Keeping in view the significance of the resettlement impacts, the monitoring mechanism for this subproject will have both internal monitoring (IM) and external monitoring (EM). Internally, the RP implementation for the subproject will be closely monitored by the EA through PMU/CSC while for external monitoring the services of an independent external monitoring agency will be hired. The IM and EM are required to;

- a. Establish and maintain procedures to monitor the progress of the implementation of safeguard plans;
- b. Verify their compliance with safeguard measures and their progress toward intended outcomes;
- c. Document and disclose monitoring results and identify necessary corrective and preventive actions in the periodic monitoring reports;
- d. Follow-up on these actions to ensure progress toward the desired outcomes;
- e. Retain qualified and experienced external experts to verify monitoring information for subproject with significant impacts and risks; and
- f. Submit periodic monitoring reports (quarterly and bi-annually) on safeguard measures as agreed with the ADB.

12.2 Internal Monitoring

104. One of the main roles of PMU will be to see proper and timely implementation of all activities of LARP. The status of all compensation payments due to each of the AHs needs to be monitored and reported, including land, trees, crops, structures, livelihood restoration measures etc., in accordance with the EM. Monitoring will be a regular activity for Internal Monitoring Consultant at this level to ensure timely implementation of LARP activities. ESC with the help of CSC will collect information from the subproject site about implementation status of key activities, process and integrate the data in the form of monthly report to assess the progress and results of LARP implementation. In case of delay or any implementation problem, adjust its work program accordingly. This monitoring and reporting will be a regular activity which is extremely important in order to undertake midway corrective steps.

105. Internal Monitoring (IM) indicators will relate to process outputs and results, information will be collected directly from the field, and will be reported monthly to the PMU to assess the LARP implementation progress and adjust the work plan if necessary. The IM report will be shared with ADB safeguards unit on monthly basis and shall be consolidated with the Quarterly supervision consultants' progress reports for ADB. Specific IM benchmarks will be based on the approved LARP and cover the following:

- i. Information campaign and consultation with DPs;
- ii. Status of compensation payment for the land and non-land assets like structures, crops and trees;
- iii. Payments for the resettlement and livelihood restoration/rehabilitation;
- iv. Grievance procedures, including recording, reporting, processing and redress of grievances; and
- v. Ensure the gender mitigation measures are adhered to during the internal monitoring and reporting process.

106. The internal Monitoring Consultant will collect the above gender-disaggregated information at PMU/CSC, which will monitor the day-to-day resettlement activities of the subproject through the following instruments:

- i. Review of census information for all DPs;
- ii. Consultation and informal interviews with DPs;
- iii. Key informant interviews; and
- iv. Community public meetings.

12.3 External Monitoring

107. The PMU through its Social Safeguard team and facilitation support of Resettlement Specialist of CSC is required to engage qualified and experienced External Monitoring Agency to verify the EA's monitoring information. EMA has been mobilized since 9th of November, 2020 on intermittent basis to monitor LARP implementation progress and provide bi-annual monitoring report. The main objective of this monitoring is to monitor the LARP implementation, identify issues and recommend corrective measures. The external monitor will review the IM reports, collect information from the field and determine whether resettlement objectives and goals have been achieved, more importantly whether livelihoods and living standards of DPs have been restored/ enhanced and suggest suitable recommendations for improvement. The external monitor will identify the gaps in LARP implementation and advise the EA on safeguard compliance issues.

108. The key tasks during external monitoring will include

- i. Review and verify internal monitoring reports prepared by PMU/CSC;
- ii. Review of the socio-economic baseline, census and inventory of losses of displaced persons;
- iii. The monitors need to assess and verify whether the entitlements have been provided in accordance with this LARP and its Entitlement Matrix;
- iv. Grievance procedures, including recording, reporting, processing and redress of grievances
- v. Consultations with DPs, community leaders and officials for preparing review report;
- vi. Assessment of resettlement implementation progress, efficiency, effectiveness and sustainability;
- vii. Review Internal Monitoring Reports and due diligence reports
- viii. Identify additional IR impacts
- ix. suggest remedial action with time-based actions and
- x. Maintain data base of independent surveys

109. The following will be considered as the basis for indicators in external monitoring and evaluation of subproject:

- i. Socio-economic conditions of the DPs in the post-resettlement period;
- ii. Communications and reactions from DPs on entitlements, compensation, options, alternative developments and relocation time tables etc.;
- iii. Quality and frequency of consultation and disclosure;
- iv. Changes in income levels;
- v. Rehabilitation of severely affected people, and different vulnerable groups;
- vi. Valuation of property and ability to replace lost assets;
- vii. Disbursement of compensation and other entitlements; and
- viii. Grievance procedures, including recording, reporting, processing and redress of grievances.

110. Based on the external monitor's report, if non-compliance is identified, a corrective action plan (CAP) will be prepared, reviewed and approved by ADB and disclosed to affected persons. However, internal and external monitoring and reporting will continue until all resettlement activities have been completed.

12.4 Reporting Requirements

111. CSC will prepare monthly progress report and assist PMU to prepare internal monitoring report on quarterly basis. The external monitoring report will be prepared by the EMA on biannual basis. However, 1st safeguard monitoring report will be submitted as the compensation disbursement is completed (tentatively 31st of October, 2021) and later it will be submitted on quarterly basis.

112. Monitoring reports will be submitted at regular intervals as specified. The M&E documents will also be publicly available (after approval from the ADB), including being posted on the subproject website.

113. Awarding of civil works contract for the Waste Water Treatment Plant – PICIIP-12 sub-project is conditional to the approved LARP while the commencement of construction is conditional to full payment to DPs and implementation of LARP to be validated by EMA.

1. PROJECT DESCRIPTION

1. The Punjab Intermediate Cities Improvement Investment Program will build on the policy reforms already undertaken by the Government of Punjab (GoPb) in the urban sector. It will support GoPb's phased approach to urban development, focusing on broad urban reforms, followed by improvements in urban institutions and finally investments in infrastructure. The sustainable urban development in cities will be achieved with the help of Asian Development Bank at the provincial level and in the selected intermediate cities.

2. At the city level, the agenda of sector reforms will be implemented through CIU's and MC's for following reform and initiatives which will be further refined and approved by Govt. of Punjab during the subproject implementation. The agenda is as follows; i) The formulation of city development plans & master plans, asset management systems ii) Separation of asset ownership from service delivery through the use of existing or establishment of new corporate entities iii) Strengthened business processes and capacity of utilities and Local Government and iv) Investments in prioritized urban infrastructure.

2. LAND ACQUISITION & RESETTLEMENT IMPACTS

3. A total of 239.30 acres of private land will be affected due to Waste Water Treatment Plant implementation. In the total area, 239.30 acre falls in Mouza's Tokanawali, Chak Kala, Chitti Shiekhan and Kappor wali. The land acquisition has been completed as section 11 of LAA, 1894 has been awarded on November 12, 2020 and March 03, 2021.

4. Due to the acquisition of this land 1024 DHs (5427 DPs) will be affected out of which 1020 DHs (5406 DPs) are land owners and 4 DHs (21 DPs) are the tenants cultivating the land on share basis. However, few DPs have reported multiple impacts e.g., out of the total 1024 DHs (5457 DPs) 22 DHs (117 DPs) also have the non-fruit trees, 13 DHs (69 DPs) on fruit trees, 55 DHs (313 DPs) on Tube wells, 23 DHs (122 DPs) on pumphouse, 1 DHs (5 DPs) on bore point, 1 DH (5 DPs) on boundary wall, 2 DHs (11 DPs) on hand pumps, 5 DHs (27 DPs) on Hooz (small concrete water tank), 936 DHs (4961 DPs) are severely impacted as 10% or more than 10% of their productive assests are severely impacted and 31 DHs (164 DPs) have been recognized as vulnerable due to their low income. i.e., below the government fixed minimum wage rate, i.e., Rs.20,000/ month. The detail is given in the following subsections. A summary of impacts with ownership status is illustrated in table 1.

Table 1: Type of LAR impacts

Sr. No.	Description	Qty/Nos.	DHs	DPs	Remarks
1	Cultivated agriculture Land (Acres)	239.30	1024	5406	Total area to be acquired for Waste Water Treatment Plant is 239.30 acres owned by 1020 DHs (5406 DPs) and 4 DHs (21 DPs) are the tenants. Hence actual DHs and DPs of this subproject are 1027 and 5427 respectively.
2	Wood trees	153	22	117	Multiple counts, DHs/ DPs being affected due to impact on land and trees.
3	Fruit Trees	53	13	69	Multiple counts, DHs/ DPs being affected due to impact on land and fruit trees.

3	Tube well	59	55	313	Multicount, DHs /DPs being affected due to impact on land and irrigation pumps.
4	Pump house	23	23	122	There is total 23 DHs (122 DPs) of pump house. Multicount, DHs/ DPs are being affected due to impact on land, tube-wells and pump house
5	Boundary wall	1	1	5.3	Multicount: 1 DHs (5 DPs) are being impacted due to land and boundary wall.
6	Hooz	5	5	27	5 DHs (27 DPs) are impacted owing to losing their Hooz of the tube-wells. Multicount: DHs/DPs are being affected due to impact on land, tube-wells and Hooz
7	Handpumps	2	2	11	2 DHs (11 DPs) are impacted owing to losing their handpumps Multicount: These DHs/DPs are affected due to impact on land and handpumps.
8	Bore point	1	1	5	Multicount: 1 DHs (5 DPs) are being impacted due to land and bore point.
9	Impact Severity	-	936	4961	936 DHs (4961 DPs) are severely impacted owing to losing 10% and more of their productive assets.
10	Vulnerability	-	31	164	All 31 DHs (164 DPs) are cognized as the vulnerable on account of having income lower than the national minimum wage rate fixed by the government for the year 2021-22 i.e., Rs. 20,000 per month.
11	Tenants	-	4	21	These are the tenants
	Total	-	1024	5427	The actual DHs are 1024 and DPs 5427 for this subproject. From the total, 1020 DHs (5406 DPs) are the land owners and 4 DHs (21 DPs) are the tenants to land owners (cultivating the land).

3. ENTITLEMENTS, ASSISTANCE AND BENEFITS

5. Compensation and entitlements have been determined on the basis of ADB SPS 2009, approved LARF and requirement of Para 81 of the LARF. Table 2 provides an Entitlement Matrix for different types of losses assessed during the census survey, Inventory of the Losses and socio-economic survey. It also covers the provisions for any unanticipated impacts arising during subproject implementation. Compensation and other assistances will be paid to DPs prior to dislocation and dispossession from acquired assets. In case, the payment is delayed more than a year from the date of valuation, the values will be indexed annually before payment to DPs.

4. GRIEVANCE REDRESS MECHANISM

6. An integrated GRM for environment and social was established at the subproject level to facilitate amicable and timely resolution of complaints and grievances of the DPs, including local communities regarding the social, environmental, and resettlement aspects of the subproject. A grievance redress mechanism is in place since 4th May 2020. It is three tiers structures described in below;
7. **Stage 1:** The affected person(s) may submit an oral or written complaint to the GRC at Field Level. The GRC will log the complaint along with relevant details in the community complaint register. The displaced person(s) can directly approach GRC. For each complaint, the GRC must investigate the complaint, assess its appropriateness/eligibility, and identify an appropriate solution. It will provide a clear response within seven working days to the complainant, PMU/CIU and Contractor (where relevant). The GRC will, as appropriate, instruct the responsible entity to take corrective actions. The GRC will review the responsible entity's response and undertake additional monitoring as needed. During the complaint investigation, the GRC will work in close consultations with the Contractors, the CSC Consultants, PMU/CIU and other relevant agencies. The responsible entity should implement the redress solution and convey the outcome to GRC within seven working days.
8. **Stage 2:** If no solution can be identified by the GRC or if the complainant is not satisfied with the suggested solution under Stage 1, the complainant can approach to stage 2 at Divsional Level (Commissioner Office). The committee will review the case and give the solution within seven days of its submission.
9. **Stage 3:** In case of dissatisfaction of the complainant at stage 2, he/she can approach to stage 3 at PMU level. Here, the GRC is headed by the Additional Secretary Development. The GRC at PMU level will resolve the complaint/grievance and the agreed action thus determined should be implemented within twenty-one days (if additional time is needed to implement the corrective action, it should be discussed and decided during the meeting).
10. The GRC cannot impede a DP's access to the legal system, according to SPS, Annex 2, para 29. Thus, a DP can approach the courts at any time in accordance with the applicable legal provisions as per Section 18 of Land Acquisition Act 1894.
11. Implementing the GRC's decision will be contractually binding on the contractor.

5. INSTITUTIONAL ARRANGEMENTS

12. The Local Government and Community Development Department (LG&CD) of the Government of Punjab is the executing agency for the project. A PMU has been established at provincial level while at city level, City Implementation Unit (CIU) established. The PMU is headed by a Project Director and supported by a team of specialists responsible for liaison and coordination with CIU. Each CIU is headed by a city Manager with support from other wings working closely with city officials to implement the project.
13. PMU will be provided the additional support through the consultants for Project Management and Implementation Support (PMIS). The consultants will assist the PMU and CIU in project management, procurement, supervision and safeguard monitoring.
14. In term of LARP implementation, LG&CD, PMU, and CIU Sahiw shall ensure that land and ROW required for the project are made available to the contractor in according with the agreed schedule and land acquisition and resettlement activities are implemented in compliance with all applicable laws and regulations of Pakistan, ADB's SPS, 2009 and measures in the form of preparation and implementation of LARP followed by the corrective action plan based on the monitoring report.

6. IMPLEMENTATION SCHEDULE

15. The implementation schedule has been formulated (in consultation with LG & CD) to accommodate different activities of the subproject and therefore different times of LAR as necessitated by the civil works. Social preparation, particularly information dissemination and maintaining a constant dialogue with the DPs, will continue by the Executing Agency (EA), Project Management Unit (PMU), City Implementation Unit (CIU) till the completion of sub-project.

15. The relocation of the DPs in the area will be required towards the end of October, 2021 and the schedule has taken these into considerations. The compensation payments if delayed for more than a year after computation will be indexed considering rate of inflation and rates prevailing at the time.

16. The commencement of civil work will be subject to the complete implementation of the LARP including payment of compensation and livelihood assistance and redress of community concerns.

تفصیل منصوبہ

1- دی پنجاب انٹرمیڈیٹ سٹیز نزا امپروومنٹ انوسٹمنٹ پروگرام (PICIIP) کی ذمہ داریوں میں حکومت پنجاب کی جانب سے اقتصادی لحاظ سے اوسط درجے کے شہری علاقوں کی ترقی و اصلاح کیلئے متعارف کی گئی پالیسی ریفارمز پر مبنی تعمیرات بطور ایک اہم عنصر شامل ہے۔ یہ پروگرام وسیع تر شہری اصلاحات و ترقیات کے ہدف کے حصول کیلئے حکومت پنجاب کی اختیار کردہ مرحلہ وار حکمت عملی میں مدد و معاون ثابت ہوگا؛ جس میں شہری ادارہ جات کی اصلاح اور انفراسٹرکچر کی بہتری پر سرمایہ کاری بھی شامل ہے۔ جبکہ منتخب شہروں میں مستحکم و پائیدار ترقی سے متعلق منصوبہ جات صوبائی سطح پر ایشین ترقیاتی بینک کے تعاون سے مکمل کئے جائیں گے۔ شہروں کی سطح پر اصلاحات کا نفاذ بذریعہ CIU's اور MC's کیا جائے گا اور حکومت پنجاب کی منظوری سے ذیلی منصوبہ جات کے تحت درج ذیل اصلاحات اور اقدامات پر عمل درآمد بھی کیا جائے گا۔

سب پراجیکٹ پر عمل درآمد کا ایجنڈا

- i- متعلقہ شہر کے ترقیاتی منصوبوں کیلئے ماسٹر پلان کی تشکیل بشمول اثاثہ جات کا انتظام و انصرام
- ii- موجودہ کارپوریٹ اداروں یا نئے قائم کردہ اداروں کی وساطت سے خدمات کی فراہمی اور اثاثہ جات کی ملکیت کا تعین
- iii- پائیدار کاروباری سرگرمیاں بشمول شہری سہولیات و لوکل گورنمنٹ خدمات میں اضافہ
- iv- ترجیحی بنیاد پر شہری انفراسٹرکچر منصوبوں میں سرمایہ کاری

2- حصول اراضی کیلئے تصفیہ جات کے اثرات

ویسٹ واٹر ٹریٹمنٹ پلانٹ پر عمل درآمد کے دوران نجی شعبہ کی زیر ملکیت 239.30 ایکڑ زرعی اراضی متاثر ہوگی۔ ایکواڑڈ اراضی (239.30) موضع ٹوکناں والی، چک کالا، چٹی شیخاں اور کپور والی 132.3 کا حصہ ہے۔ یہ رقبہ پنجاب لینڈ ایکویزیشن ایکٹ 1894 کے تحت 12 نومبر 2020 اور 3 مارچ 2021 کو حاصل کیا جا چکا ہے۔ مجوزہ منصوبہ 1024 گھرانے (5427 افراد) کو متاثر کرے گا جن میں سے 1020 گھرانے (5406 افراد) زمین کے مالک ہیں اور 4 گھرانے (21 افراد) حصے پر زمین کاشت کرتے ہیں۔ 1020 افراد کی فصل متاثر ہوگی، 35 افراد کے درخت متاثر ہوں گے 55 افراد کے ٹیوب ویل اور 23 افراد کے ٹیوب ویل روم، 1 فرد کا بور 5 افراد کی حوضی، اور 1 فرد کی چار دیواری متاثر ہوگی۔ ان تمام افراد میں سے 936 افراد شدید متاثرین ہیں جن کے اپنے پیداواری اثاثہ کا 10 فیصد یا اس سے زیادہ کا حصہ متاثر ہوگا۔ 31 افراد (جن میں سے 6 بیوائیں، 5 معذور افراد اور 20 افراد جن کی ماہانہ آمدن غربت کی لکیر سے نیچے ہے) کی شناخت غیر مراعات یافتہ

(vulnerable) افراد سے ہوتی ہے۔

4۔ شکایات کی دادرسی کا نظام (GRM)

سب پراجیکٹ پر عمل درآمد کے دوران سماجی، ماحولیاتی و بحالیات جیسے متوقع مسائل کے حل کیلئے ایک مربوط ماحولیاتی و سماجی GRM قائم کیا گیا ہے جس کے تحت شکایات کے افہام و تفہیم کے مطابق ازالہ اور متاثرین بشمول مقامی آبادی کی بروقت دادرسی کا ایک مکمل نظام وضع کیا گیا ہے۔

شکایات کے ازالے کا یہ نظام GRM مورخہ 4 مئی 2020 سے نافذ العمل ہے جو درج ذیل 3 مراحل پر مشتمل ہے

پہلا مرحلہ

متاثرہ شخص فیلڈ لیول پر زبانی یا تحریری شکایت GRC (کمیٹی) کو پیش کر سکتا ہے۔ GRC پیش کردہ شکایت کو متعلقہ تفصیلات کے ساتھ کیونٹی شکایاتی رجسٹر میں درج کرے گی۔ متاثرہ فرد براہ راست GRC سے رجوع کر سکتا ہے۔ GRC ہر شکایت کی تحقیقات کے بعد

اہلیت / مناسبت کا تعین کر کے اس کے تدارک کی نشاندہی کرے گی۔ شکایت کنندہ سمیت PMU/CIU اور ٹھیکیدار (اگر تعلق بنتا ہے) کو سات کاروباری ایام کے اندر اندر پیش رفت سے آگاہ کر دیا جائے گا۔ GRC ذمہ دار فریق کو درست اقدامات اٹھانے کی ہدایات جاری کرے گی، ان اقدامات کا جائزہ لے گی، بصورتِ ضرورت اضافی نگرانی کا بندوبست کرے گی۔ متذکرہ تحقیقات کے دوران GRC ٹھیکیداروں، CSC کنسلٹنٹس، PMU/CIU اور دیگر متعلقہ اداروں کے ساتھ مشاورت میں رہے گی۔ ذمہ دار فریق سات دن کے اندر اندر مجوزہ حل پر عمل درآمد کے ساتھ ساتھ GRC کو نتائج کے حوالے سے آگاہ کرنے کا ذمہ دار بھی ہوگا۔

دوسرا مرحلہ

اگر GRC کے ذریعے کسی بھی حل کی نشاندہی نہیں کی گئی یا شکایت کنندہ مرحلہ نمبر 1 کے تحت تجویز کردہ حل سے مطمئن نہیں تو وہ دوسرے مرحلہ کے تحت سٹی لیول (کمشنر آفس) سے رجوع کر سکتا ہے۔ متعلقہ کمیٹی معاملے کا جائزہ لے گی اور شکایت جمع کروانے کے سات دن کے اندر حل تجویز کرے گی۔

تیسرا مرحلہ

شکایت کنندہ مرحلہ نمبر 2 پر بھی عدم اطمینان کی صورت میں تیسرے مرحلے پر PMU سے رابطہ کر سکتا ہے یہاں GRC کی سربراہی ایڈیشنل سیکریٹری ڈیولپمنٹ کرتا ہے۔ PMU سطح پر GRC شکایت کا حل نکالے گی اور طے شدہ کارروائی پر عمل درآمد 21 یوم کے اندر کر دیا جائے گا۔ (اصلاحی سرگرمی پر عمل درآمد کیلئے مزید وقت درکار ہونے کی صورت میں فیصلہ اجلاس کے دوران تبادلہ خیال کے بعد کیا جائے گا)۔

5۔ ادارہ جاتی انتظامات

حکومت پنجاب کا لوکل گورنمنٹ اینڈ کمیونٹی ڈیولپمنٹ ڈیپارٹمنٹ (LG&CD) منصوبہ بند اپر عمل درآمد کا ذمہ دار ادارہ ہے۔ اس غرض کیلئے صوبائی سطح پر PMU جبکہ شہری سطح پر CIU کا قیام عمل میں لایا گیا ہے۔ PMU کی سربراہی پراجیکٹ ڈائریکٹر کر رہے ہیں؛ جنہیں CIU کے ساتھ رابطہ کاری اور اشتراک عمل کیلئے ماہرین پر مشتمل ایک ٹیم کی معاونت حاصل ہے۔ ہر CIU کی سربراہی ایک سٹی مینجر کے پاس ہے جنہیں منصوبہ کو عملی جامہ پہنانے کے لئے متعلقہ شہری افسران کے ماتحت شعبہ جات کی معاونت حاصل ہوتی ہے۔

پی ایم یو کو پراجیکٹ مینجمنٹ اینڈ ایگزیکیوٹو مینیشن سپورٹ (پی ایم آئی ایس) کے مشیروں (Consultants) کے ذریعے اضافی مدد فراہم کی جائے گی۔ یہ ماہرین PMU اور CIU کو پراجیکٹ مینجمنٹ، پروکیورمنٹ، نگرانی اور حفاظتی امور کی مانیٹرنگ میں مدد دیں گے۔ ایل ای آر پی کے نفاذ کی مدت کے دوران، ایل جی اینڈ سی ڈی، پی ایم یو اور سی آئی یوسیا لکھنؤ اس بات کو یقینی بنائیں گے کہ منصوبے کے لئے درکار زمین اور ROW منظور کردہ جدول کے مطابق ٹھیکیدار کو دستیاب ہیں اور زمین کے حصول اور دوبارہ آباد کاری کی سرگرمیاں نافذ العمل ملکی قوانین و ضوابط، اے ڈی بی کے ایس پی ایس، 2009 اور ایل ای آر پی کی تیاری اور نفاذ کے تقاضوں کے مطابق جاری ہیں

اور ان اقدامات پر عمل درآمد مانیٹرنگ رپورٹ پر مبنی اصلاحی ایکشن پلان کی روشنی میں کیا جا رہا ہے۔

6۔ جدول برائے عمل درآمد

سب پروجیکٹ کی مختلف سرگرمیوں کی تکمیل اور لہذا سول ورکس کی ضروریات کے مطابق LAR کے مختلف اوقات کیلئے (ایل جی اینڈ سی ڈی کے مشورے سے) عمل درآمد کا جدول مرتب کیا گیا ہے۔ سماجی سطح پر تیاری، خاص طور پر معلومات کی تشہیر اور متاثرین کے ساتھ مستقل مکالمے کا ہتمام جیسی سرگرمیاں ایگزیکٹو ایجنسی (ای اے)، پروجیکٹ مینجمنٹ یونٹ (پی ایم یو)، سٹی عملدرآمد یونٹ (سی آئی یو) کی زیر نگرانی جاری رہیں گی۔

علاقے میں متاثرین کی منتقلی کا عمل ماہ اکتوبر 2021 کے آخر تک جاری رہے گا جسے جدول کی تیاری کے دوران زیر غور لایا گیا۔ اگر معاوضے کی ادائیگی میں تعین تہمینہ کے بعد ایک سال سے زیادہ تاخیر ہو جائے تو بعد ازاں یہ ادائیگی افراط زر کی شرح اور اس وقت موجود ریٹ کی روشنی میں طے کی جائے گی۔ سول کام کا آغاز ایل آر پی کے مکمل نفاذ سے مشروط ہوگا جس میں معاوضے کی ادائیگی، متبادل روزگار کیلئے معاونت اور سماجی سطح پر درپیش خدشات کا ازالہ جیسے امور شامل ہیں۔

D. National Competitive Bidding

 Director
 Procurement & Contracts
 Program Management Unit,
 PICIP, LG&OD Department,
 Govt. of the Punjab

SCANNED WITH CAMSCAN

1. General

The procedures to be followed for national competitive bidding shall be those set forth in the Public Procurement Rules 2004 [S. R. O. 432 (1)/2004] issued on the 9th June 2004 by the Public Procurement Regulatory Authority Ordinance 2002 (XXII of 2002) of the Islamic Republic of Pakistan with the clarifications and modifications described in the following paragraphs required for compliance with the provisions of the ADB Procurement Guidelines.

2. Registration

- (i) Bidding shall not be restricted to pre-registered firms and such registration shall not be a condition for participation in the bidding process.
- (ii) Where registration is required prior to award of contract, bidders: (i) shall be allowed a reasonable time to complete the registration process; and (ii) shall not be denied registration for reasons unrelated to their capability and resources to successfully perform the contract, which shall be verified through post-qualification.

3. Prequalification

Normally, post-qualification shall be used unless prequalification is explicitly provided for in the loan agreement/procurement plan. Irrespective of whether post qualification or prequalification is used, eligible bidders (both national and foreign) shall be allowed to participate.

4. Bidding Period

The minimum bidding period is twenty-eight (28) days prior to the deadline for the submission of bids.

5. Bidding Documents

Procuring entities shall use the applicable standard bidding documents for the procurement of goods, works and services acceptable to ADB.

6. Preferences

No domestic preference shall be given for domestic bidders and for domestically manufactured goods.

7. Advertising

Invitations to bid shall be advertised in at least one widely circulated national daily newspaper or freely accessible, nationally-known website allowing a minimum of twenty-eight (28) days for the preparation and submission of bids. NCB contracts estimated to cost \$500,000 or more for goods and related services and \$1,000,000 or more for civil works will be advertised on ADB's website via the posting of the Procurement Plan.

8. Bid Security

Where required, bid security shall be in the form of a bank guarantee from a reputable bank.

9. Bid Opening and Bid Evaluation

- (i) Bids shall be opened in public.

Director
Procurement & Contracts
Program Management Unit,
PICIR, LGSD Department
Govt. of the Punjab

Scanned with CamScanner

- (ii) Evaluation of bids shall be made in strict adherence to the criteria declared in the bidding documents and contracts shall be awarded to the lowest evaluated bidder.
- (iii) Bidders shall not be eliminated from detailed evaluation on the basis of minor, non-substantial deviations.
- (iv) No bidder shall be rejected on the basis of a comparison with the employer's estimate and budget ceiling without the ADB's prior concurrence.
- (v) A contract shall be awarded to the technically responsive bid that offers the lowest evaluated price and no negotiations shall be permitted.

10. Rejection of all Bids and Rebidding

Bids shall not be rejected and new bids solicited without the ADB's prior concurrence.

11. Participation by Government-owned enterprises

Government-owned enterprises in the Islamic Republic of Pakistan shall be eligible to participate as bidders only if they can establish that they are legally and financially autonomous, operate under commercial law and are not a dependent agency of the contracting authority. Furthermore, they will be subject to the same bid and performance security requirements as other bidders.

12. ADB Member Country Restrictions

Bidders must be nationals of member countries of ADB, and offered goods and services must be produced in and supplied from member countries of ADB.

GUIDANCE NOTES	X	Handling Compensation Cases with Legal and Administrative Impediments
Policy Requirement	Pay compensation and provide other resettlement entitlements before physical or economic displacement. ^{4 56}	
Key Pointers		
<i>SPS and legal covenants</i>	<p>1. ADB Safeguard Policy Statement (SPS2009) requires the borrower/client to ensure that no physical displacement or economic displacement will occur until (i) compensation at full replacement cost ² has been paid to each displaced person (DP) for project components or sections that are ready to be constructed; (ii) other entitlements listed in the resettlement plan have been provided to DPs; and (iii) a comprehensive income and livelihood rehabilitation program, supported by an adequate budget, is in place to help DPs improve, or at least restore, their incomes and livelihoods. While compensation is required to be paid before displacement, full implementation of the LARP might take longer. ³ To ensure policy compliance, specific provisions are included in the Project/Loan agreements to keep on-hold civil works until compensation payments are fully paid to the DPs.</p>	
<i>When is compensation considered paid?</i>	<p>2. Compensation for both land and non-land assets is deemed to have been paid when the amount in cash or cheque has been provided to DPs⁷ or deposited into their bank account, or in an escrow account.⁸ Depositing the compensation in an escrow account, in lieu of providing cash or cheque to the DP is justified only when sufficient good-faith efforts and all legal requirements for contacting and notifying the DPs have been made.</p>	
<i>LAA requirement on compensating before displacement</i>	<p>3. Pakistan's Land Acquisition Act (1894) allows the government to take possession of the acquired land once land award has been made as per LAA Section 11, and payment has been made or deposited in court as per LAA Section 31. Accordingly, the Collector is required to pay the full amount to the DP, unless (a) the DP refuses to receive the amount, (b) there is no competent person to receive the compensation, or (c) if there is a dispute as to the title to receive the compensation. Such cases may be referred to the court and the compensation amount deposited in the court.⁹ In case the DPs or their representatives did not come forward to collect their compensation, the</p>	

⁴ See Involuntary Resettlement Safeguards Policy Principle 11, ADB Safeguards Policy Statement (2009), page 17.

⁵ SPS defines full replacement cost for land and non-land assets as based on the following elements: (i) fair market value; (ii) transaction costs; (iii) interest accrued, (iv) transitional and restoration costs; and (v) other applicable payments, if any. In case of non-land assets, depreciation of structures and other assets should not taken into account. See SR 2: Involuntary Resettlement, ADB SPS (2009), para 10.

⁶ See SR 2: Involuntary Resettlement, ADB SPS (2009), para 14.

⁷ Displaced persons include: (i) persons with formal legal rights to land lost in its entirety or in part; (ii) persons who lost the land they occupy in its entirety or in part who have no formal legal rights to such land, but who have claims to such lands that are recognized or recognizable under national laws; and (iii) persons who lost the land they occupy in its entirety or in part who have neither formal legal rights nor recognized or recognizable claims to such land. The borrower/client is required to provide adequate and appropriate replacement land and structures or cash compensation at full replacement cost for lost land and structures, adequate compensation for partially damaged structures, and relocation assistance, if applicable, prior to their relocation. DPs without legal rights to the affected land should be compensated for the loss of their non-land assets, and for other improvements to the land, at full replacement cost prior to their relocation provided they occupied the land or structure before the cut-off date. See SR 2: Involuntary Resettlement, ADB SPS (2009), para 7-8.

⁸ An escrow account is a separate, dedicated or trust bank account for keeping money that is the property of others. It is relevant in the case of absentee landlords whose property is acquired for a public purpose, or when there is litigation regarding the compensation amount for land acquisition. This mechanism enables payment of compensation once the legal cases were settled and ownership documents were submitted. ⁹ Reference to the court may only be made after the lapse in the period in Section 18 (2) of the LAA.

<p><i>Cases with legal and administrative impediments</i></p>	<p>amount may be deposited in the Revenue Department payable to the DPs, after sufficient efforts have been made to contact and encourage DPs to appear and notifying the DPs in which treasury the deposit has been made.¹⁰ As per LAA Standing Order 28, the Acquiring Officer is required, to the extent possible, to pay DPs in or near the DPs' village to facilitate collection of compensation.</p> <p>4. Both the LAA (1894) and ADB SPS (2009) require that DPs are compensated before displacement but allow a mechanism for dealing with cases with legal and administrative impediments to disbursing compensation provided that sufficient good faith efforts are demonstrated to (a) contact, notify and assist DPs, and (b) deliver compensation payments. This guidance note clarifies:</p> <ul style="list-style-type: none"> i. What are cases with legal and administrative impediments to payment of compensation to DPs? ii. What are the requirements under the LAA related to cases with legal and administrative impediments to payment of compensation to DPs?; and, iii. When can good-faith efforts be considered as sufficient and how to document that good-faith efforts have been made? <p>5. Cases with legal and administrative impediments to payment of compensation include:</p> <ul style="list-style-type: none"> i. DPs who did not accept the award due to objection to the measurement of the land or affected asset, the amount of compensation, the person to whom it is payable, or the apportionment of the compensation among the persons interested; ii. Absentee landowners (DPs living overseas or in other parts of the country), and without an authorized representative to collect compensation; iii. DPs with pending inheritance mutations; iv. DPs who are unenthusiastic to collect meager compensation amount; v. DPs who are unable to alienate the acquired asset either by being a juvenile with no legally documented guardian or due to other issues.
<p><i>Cases not valid as legal and administrative impediments</i></p>	<p>6. Non-disbursement/non-delivery of compensation due to (a) insufficient funds or delay in approval of funds; or (b) insufficient staff or resources does not justify not paying compensation to DPs before displacement. EAs/IAs have the power and responsibility to ensure that sufficient funds and staffing are available in a timely manner to undertake the required land acquisition. Similarly, non-compensation of affected non-land assets (structures) and improvements by DPs who have no formal rights to the affected land is not considered as a valid legal and administrative impediment (see footnote 4).</p>
<p><i>Why is it important to address cases with legal and administrative impediments?</i></p>	<p>7. DPs facing legal and administrative impediments could only be paid when the impediments have been resolved. In such cases, it is uncertain when DPs will receive their compensation causing untoward delay in project implementation and burden to local communities and project stakeholders. More importantly, these impediments prevent the project from assisting these DPs to enhance, or at least restore, their livelihoods and to improve the standards of living of the displaced poor and other vulnerable groups.</p>
<p><i>Good-faith efforts for cases with</i></p>	<p>8. Compensation of these DPs is beyond the control of the EA. These are mainly dependent of the actions of the DPs or ruling/decision from a third-party i.e. the court or BOR. However, good-faith efforts are needed from the EA/IA to (a) contact and notify DPs through their last known address, village heads or kins; (b) inform DPs who to</p>

<i>legal and administrative impediments</i>	contact or where to proceed to collect their compensation; and (c) advise DPs on possible actions that may help them receive their compensation.
<i>Need for sustained community outreach</i>	<p>9. It is important that the LAR management team⁸ undertakes continued community consultations and outreach to locate, assist and guide DPs with legal and administrative impediments. Documentation of the efforts by the LAR management team including multiple visits⁹ to DPs' villages, organizing village meetings, posting of notices in public places, serving notices at last known address of DPs and publishing the names of unpaid DPs in the print media is needed to demonstrate that due efforts were conducted in addressing cases with impediments to paying compensation.</p> <p>10. Some issue-specific measures to confirm DPs understanding about the availability of compensation, payment mechanism, time-lines, and DPs agreement to the commencement of works (wherever required) while the issue is being resolved can help show and validate the efforts exhausted by the EA to achieve the policy objectives and enable the decision makers to allow the construction works accordingly. For each issue, documentation requirements and recording of certification statements are discussed below. Standard templates for additional documentation are provided against each issue as and wherever required:</p>
<i>Cases with title disputes and litigation</i>	<p style="text-align: center;">i) Land Title Disputes or Litigations among the DPs or Court References Against Award</p> <p>11. When there is a dispute on the title of the affected land before a competent court of law or when DPs file references against award, compensation can only be made after the court decrees which may take years. Further, right to appeal against court's decree cannot be forfeited or denied under law which could further delay the payment. In such cases, payment of compensation in a given time frame is impossible and it would be appropriate to deposit compensation in treasury at courts disposal to make sure the DPs are paid as and when court verdict is passed. For these cases, the process provided in the succeeding paras should be followed.</p> <p>12. Immediately after identifying such cases, the EA after seeking court's permission should deposit the compensation amount in the court for payment to the DPs as and when court decides their reference or title dispute. The receipt and records for such deposits should be maintained at the EA's project office. Meanwhile, the EA through its LAR staff should liaise with the DPs to inform them about the compensation payment mechanism and compensation deposited in the treasury or the court. The EA's project office should prepare and maintain the following record:</p> <ul style="list-style-type: none"> • Database/listing and field reports on activities done to identify and screen DPs with their legal/administrative issues including nature of dispute and reference court where pending • Field reports on activities done to coordinate with the DPs for early resolution of

⁸ The LAR management team may include Land Acquisition and Resettlement Staff engaged by the EA i.e. EA's Land Management Staff, Land Acquisition Collector deputed by BOR, Resettlement Specialists and social mobilizers either recruited by the EA or mobilized through Consultants (Safeguards Management or Construction Supervision Consultants) to support the EA in effective LAR management..

⁹ Repeated visits in three consecutive months scheduled for each village by the Land Acquisition Collector/Land Acquisition Unit of the EA to deliver compensation to unpaid DPs and identify those with legal and administrative impediments. The repeated visits should be documented showing visit schedule, information disclosure reports, list of persons met and field visit reports duly endorsed by the local community and the village headman confirming number of identified DPs with legal and administrative impediments.

<p><i>Absentee land owners</i></p>	<p>their issues and with courts for seeking permission/guidance and deposit of compensation in treasury at court's disposal. copy of the delivery of notices (with signed receipt) to the DPs confirming deposit of amount at court's disposal and clarifying mechanism for payment.</p> <ul style="list-style-type: none"> • <p>ii) Absentee Landowners (DPs Living Overseas or in Other Parts of the Country).</p> <p>13. Many rural households migrate to cities for better livelihood opportunities and standard of living. Moreover, hereditary division over time resulted in the segmentation of agricultural land parcels into unproductive units. While some families with land and assets in different parts of the country divide their land based on their places of residence, many do so without legally formalizing such settlements and getting land records updated accordingly. Some family members who have migrated overseas permanently had land in their name or retained their respective share in family-owned land as per land revenue records. Such DPs who own or have share in the land as per record but are not living in the village are termed as absentee landowners.</p> <p>14. Absentee landowners¹⁰ are also recorded as DPs. The compensation to absentee land owners could not be made until they appear before the acquiring officer for processing and payment of compensation. LAA requires that notices are delivered against each land parcel either through (a) co-sharers in the acquired land parcel, (b) DPs relatives living in the village, or (c) through the village headman. The legal requirement is to serve notices to DPs at their places of residence either through special messenger or registered post, which can only be met if the whereabouts and residence of the absentee land owners is known. An additional measure that may be considered to notify absentee land owners whose whereabouts are unknown is to publish their names in print media (National Daily News Paper).¹¹</p> <p>15. It is vital to collect information about the DP's contact details including the mailing and residential address. The following measures are proposed to contact absentee landowners and maintain record of all efforts made by the EA:</p> <ul style="list-style-type: none"> • Identify and record DPs relation in affected village or local contact person, collect information about DP's present place of residence. See template 1 below:

have not come forward to collect compensation were published in the National News Papers (Urdu language) as a last resort effort to approach unpaid DPs for compensation delivery.

iii) DPs with Pending Inheritance Mutations						
16. Land records are maintained by the local land revenue authorities who are responsible to enter land mutation transactions as and when reported by the landowners and update land records accordingly. Some heirs of DPs who passed away fail to get inheritance mutations recorded and get land records updated accordingly. On average, land acquisition process is completed almost in two years. During the acquisition or after land awards are announced, some DPs pass away without receiving their entitled						

DPs with pending inheritance mutation

compensation. Although the legal heirs of the deceased DP are eligible for compensation, they could not be paid until the inheritance mutation is recorded and remaining land of deceased DP is transferred in their name.

17. The law requires heirs of the DP to report to the local land revenue authorities about the demise of the DP and apply for the updating of the land record. Upon receipt of the application, the land revenue authorities undergo a legal process to record the inheritance mutation, update the land record reflecting the names of legal heirs and their respective shares in the land record. When it is done, the compensation can be paid to the legal heirs as per their respective share. This process normally takes three to four months. For cases where inheritance mutations are not timely reported, recording becomes more difficult and can take a longer period to complete.

18. When it is determined that the DP has passed away, the LAR management team should approach the legal heirs to apprise them on the process for getting compensation and assist them in approaching land revenue authorities to get their inheritance mutations recorded. The LAR management team should carry-out the following activities to facilitate the mutation of inheritance and early payment of compensation to the heirs and document their efforts:

- Identify all living legal heirs of the DP, visit the heirs residing in the village and guide them on the process and facilitate in inheritance mutation process:
- Collect a statement from the legal heirs¹¹ confirming that their inheritance mutation of land is pending, acknowledging the EA's efforts to assist them, indicating awareness that funds are available for compensation delivery, and concurring that works may commence while their inheritance mutation is being processed.
- Keep copies of the signed statement in the EA project office files. See Template 3 below (to be translated to Urdu):
-

¹¹ To the extent possible, all legal heirs living within the village should sign the Statement. If some heirs are not available to sign, the LAR management team should prepare a field report indicating who are the heirs who were not able to sign the statement and the circumstances why they were not able to sign i.e. out of the village or country, ill, etc. The LAR management team should also record the names of heirs who are out of the village or country and their last known address and advise the other heirs to relay the information to those who are away.

*DPs
unable to
alienate
the land*

iv) DPs Who are Unable to Alienate the Acquired Asset:

19. Minors, juveniles and DPs with mental disability are not capable to alienate the acquired land under law. The law provides that compensation could be paid through legally-designated guardians or managers who can act and alienate the immovable property on behalf of the DP. In cases where the guardians are not designated by the court, the compensation is put on-hold until the minor attains the age of majority and claim compensation.

20. It is common that children inherit their parents' immovable properties, but is kept in possession and used by adult male members of the extended family or kinship group as a joint family asset. It is not a common practice to appoint guardians following the Guardians and Wards Act of 1890. Hence, compensation of DPs with minor age is kept on hold until the DP becomes of legal age unless a valid guardian certificate is produced. Although such cases are not many, it is important to guide the adults who provide care to these DPs to approach the right forum or court for appointing a guardian under law.

21. The LAR management team should carry-out the following activities in dealing with pending guardian's appointment and in documenting its efforts:

- Coordinate with the Living Parent or other grown up members of the household the DP is living with and guide them on the process of appointing a guardian.
- Collect a certification statement from the Living Parent or other grown up member of the household the DP is living with, that i) confirms EA's efforts to notify and guide them and secure funds for compensation payment, ii) states that the appointment of guardian is pending, and iii) concurs to the commencement of civil works on the plot while the guardianship certificate is being processed. Such statement should be witnessed by the village headman and the village DPC chairman or member. See Template 4 below (to be translated to Urdu).

BACKGROUND OF VALUATION STUDY

BACK GROUND OF VALUATION STUDY

1. The involuntary land acquisition and resettlement poses a significant risk on the livelihood of the people who are affected physically and economically due to development project. The funded international Financial Institutions (IFIs) have therefore adopted various standards to manage the social risks and to protect the affected community/people by compensating compulsory acquired assets at replacement costs and providing assistance to restore their lost income and livelihood for their finance projects. This is to be done in such a way that APs are not worse-off than they were before the displacement. Accordingly, Asian Development Bank (ADB), requires replacement cost paid as compensation for all lost assets (land and non-land). This requirement is clearly established by both the Involuntary Resettlement Policy (IVS), 1995 and Safeguard Policy Statement (SPS), 2009 of ADB.
2. While both IRP and SPS require compensation for lost assets on “full replacement cost” the SPS is more specific than IRP in terms of methodology. SPS guidance for establishing replacement cost consist of the following, i) fair market value, ii) transaction cost, iii) interest accrued, iv) transitional and restoration costs and, v) other applicable payment, if any. Where market conditions are absent or in a formative stage, the borrower and client will consult with the displaced persons and host population to obtain adequate information about recent land transaction, land value by types, land title, land use, crop
3. ping pattern and crop production, availability of the land in the project area, regions, and other related information.
4. The borrower/ client will also collect the data on housing, house types and construction materials. Qualified and experienced experts will undertake the valuation of acquired assets. In applying method of valuation, depreciation of structures and assets should not be taken into account. However, active market condition in the project area have been observed before and at the time of commencement of land acquisition process.
5. ADB is supporting the PICIIP in funding a number of subprojects under PICIIP Pakistan. Challenges in establishing a replacement cost for lost assets have been experienced based on the complaints received from the affected persons on low market rate adopted for the assessment of affected land. Consequently, PMU assigned the task to independent valuer M/s “ANDERSON CONSULTING (PVT) LIMITED” under took a land valuation study to determine how the replacement cost should be appraised and review the land acquisition and assessment process conducted by the Board of Revenue (BOR). To ensure the compliance with the ADB’s safeguard policy, a central part of the study consisted of determining how the value of land and other assets could be assessed to meet the policy requirements of ADB and also satisfy the legal requirement of Pakistan.

OBJECTIVE OF STUDY
SPS 2009 REQUIREMENTS FOR REPLACEMENT COST**

46526-002: Punjab Intermediate Cities Improvement Investment Project (PICIIP)

TERMS OF REFERENCE (TOR) Independent Third-Party Valuator (ITV)

Background:

6. The Asian Development Bank (ADB) is supporting the Provincial Government of Punjab to implement the Punjab Intermediate Cities Improvement Investment Project (PICIIP) under ADB Loan 3562-PAK amounting to \$200.0 million. Prioritized subprojects focus on water supply and sanitation. Detailed design for the water supply and sanitation (WATSAN) and the wastewater treatment subprojects has been completed and the works contracts are in different stages of procurement.

7. The implementation of some subjects proposed under PICIIP involves land acquisition and resettlement. For the three water supply and sanitation subprojects, a total of 12.431 acres of urban land will be acquired for the 3 sewerage pumping stations – 5.1 acre for Sahiwal North Zone, 4.79 acre for Sahiwal South Zone and 2.54 acre for Sialkot. Land acquisition will also be needed for the two wastewater treatment plants (WWTPs). Initially, it is estimated that around 437.09 acres will be needed (196.362 acres in Sahiwal and 240.73 acres for Sialkot). Land acquisition process for these subprojects is at different stages. Section 4 has been notified for all subprojects. Section 5 has been notified for 2 subprojects. Two subprojects have notified Section 9 while 2 subprojects have declared award under Section 11 of the Land Acquisition Act (LAA). The attachment below shows the land acquisition requirements for the water supply and sanitation and the wastewater treatment subprojects, as well as the status of the LAA process.

8. ADB SPS 2009 requires that the rate of compensation for acquired land, structures and other lost assets are calculated at full replacement cost (RC), which is based on the following elements: (i) fair market value; (ii) transaction costs; (iii) interest accrued; (iv) transitional and restoration costs; and (v) other applicable payments, if any. Where market conditions are absent or in a formative stage, the borrower/client is required to consult displaced persons and host populations to obtain adequate information about recent land transactions, land value by types, land titles, land use, cropping patterns & crop production, availability of land in the project area and region and other related information. Qualified and experienced experts are required to undertake the valuation of acquired assets. In applying the method of valuation, depreciation of structures and assets should not be considered.

9. Similarly, Section 23 of the Pakistan's Land Acquisition Act (1894) as amended, prescribes the matters to be considered in determining compensation. These include (i) market-value of the land on the date of publication of Section 4, sub-section taking into account transfer of land similarly situated and in similar use, and potential-value of the land to be acquired subject to certain conditions; (ii) the damage sustained by the person interested to any standing crops or trees which may be on the land; (iii) the damage (if any) sustained by the person interested for severing such land from his other land; (iv) the damage (if any) sustained by the person interested to his other property, movable or immovable, in any other manner, or his earnings; (v) reasonable expenses (if any) incidental to being compelled to change his residence or place of business; and (vi) the damage resulting from diminution of the profits of the land between the time of the publication of the declaration under Section 6 and the time of the Collector's taking possession of

the land. In addition to the market-value of the land, a 15% premium is added in consideration to the compulsory nature of the acquisition, if the acquisition has been made for a public purpose.

10. The LAA requires that the main criterion for fair compensation is the price which a buyer would pay to a seller for the property if they voluntarily entered into the transaction. In determining the value of the land acquired by the Government and the price which a willing purchaser would give to the willing seller, past sales as indicated in the registered sales records should not be the only basis for assessment. The value of the land with all its potentialities may also be determined by referring to local property dealers or other persons who are likely to know the price that the property (land and other assets) in question is likely to fetch in the open market. More specific guidance on the application of Section 23 of the LAA can be found in various court rulings on compensation payment cases.

11. PICIIP subprojects are required to compensate and assist displaced people to restore their livelihoods following the provisions in the Land Acquisition and Resettlement Framework (LARF) for PICIIP agreed between the Government of Pakistan and ADB. Accordingly, detailed measurement survey (DMS) and valuation of lost assets (VLA) including land, structures, crops, trees and livelihood are required to be carried out in collaboration with qualified appraisers of the BOR, SBP accredited valuers, certified companies, individuals and non-governmental organizations (NGOs) certified in valuation. A third-party with expertise in valuation has to be engaged as an independent third party to observe and verify or undertake the DMS and VLA process.

12. The difference between BOR and RC will need to be worked out through a valuation study by qualified and experienced experts. In cases where compensation has been already awarded, the BOR, under the prevailing LAA practice, is not authorized to accept or reject any additional amount of compensation (over and above the BOR price). However, City Implementation Unit (CIU) will be required to arrange payment of the balance amount to the DPs, to comply with the conditions of the loan agreement.

Objectives and Scope of Work:

13. The services of a valuation firm/expert approved by the Pakistan Bank's Association to serve as an independent third-party valuator (ITV) are needed to undertake an independent valuation study of a representative sample of assets to be acquired under the PICIIP. The valuation study aims (i) to ascertain the current replacement cost, as specified in ADB SPS 2009, of all land and non-land assets lost due to land acquisition under PICIIP and (ii) to establish whether the valuation of affected assets by the District Price Assessment Committee (DPAC) meets the elements of RC, while considering the calculation of compensation as specified in Section 23 of the LAA.

14. The objective of the independent land valuation study is to independently appraise the value of land and other affected assets under the PICIIP Project based on international appraisal standards using a sample of 10% or at least 8 plots of affected land per subproject, covering various land types and locations. If the DPAC rates do not fall within the identified range of rates reflecting replacement cost, the independent third-party valuator will determine (i) the reasons for the difference in the rates and (ii) the exact balance between RC and DPAC rates for land, structures, crops, trees and income losses, in order to enable PICIIP CIUs to fill the gap.

15. The independent third-party valuation study will apply the methodology for the determination of replacement cost as referred under ADB SPS 2009 and the field investigation will cover the following:

- (i) review of land records and conducting of field survey
- (ii) assessment of location
- (iii) consideration of value of similar properties in the vicinity and in the immediate neighborhood
- (iv) consideration of accessibility
- (v) consideration of land type and use
- (vi) consideration of availability of sources of water
- (vii) consideration of other amenities
- (viii) consideration of distance from the population/nearest town/village
- (ix) consideration of market competitiveness and the prevailing economic environment in the country affecting real estate
- (x) consideration of market rates of structures (business & residential) without deduction of depreciation
- (xi) rates for crops cultivated on the affected land
- (xii) rates for fruit trees considering the investment cost & fruit bearing age; the rate of wood/timber in case of non-fruit trees;
- (xiii) consideration of business/income losses & livelihood restoration assistance

16. The independent third-party valuator (ITV) will undertake the following tasks:
 - a. select a sample of 10% or at least 8 plots of the affected land per subproject, ensuring that the sample includes all categories of land (i.e. agricultural, residential, etc.) and location (off-road/adjacent to the road), etc. from the list of land parcels to be acquired.
 - b. describe the valuation approach methodology to be used to appraise replacement cost in accordance with the ADB SPS 2009;
 - c. meet relevant stakeholders including DPs, LAC staff, project-land staff, DC staff, revenue officials, prospective buyers and the local people.
 - d. obtain copies of previous land awards, valuation tables, LA-7 forms and mutations information in the affected villages (mouzas). While collecting data, take into consideration factors responsible for supply and demand.
 - e. get information on recent land transactions, land use, cropping patterns, crop production (per acre, per term, per year for different crops), irrigation patterns, availability of land in the project area and region, and factors prospective buyers consider while buying land in the region.
 - f. undertake a physical survey to make a general assessment of the location of the land parcel (on/off road), value of similar properties in the vicinity, accessibility, sources of cultivation (canals, tube well etc.), nearby amenities (like schools, hospital, etc.), any improvements (structures, trees, crops, irrigation canals and other land development measures) made to the land parcel, general supply and demand environment in the locality, and prospective buyers in the locality.
 - g. review the awarded rates by the DPAC and that of prevailing rates of sales records (mutations) in the sampled villages (mouzas) taking into account the accessibility to the land, location of the land; fertility/productivity; availability of amenities; and any other pertinent factor that may affect land values; verify the average farm yield/productivity rates from different sources i.e. LAC office, local farmers, and the Department of Agriculture;
 - h. appraise the fair market value of the sampled properties (based on the actual prices at which a lost asset can be sold and acquired in today's markets as opposed to registered prices in land records), as well as relevant transaction costs and other elements of RC in accordance with the ADB SPS 2009;
 - i. prepare a valuation report for each sampled land parcel which includes the following information:
 1. property address (village name, parcel identification)
 2. general description of the property
 3. site (area)
 4. registered owners
 5. location and attributes (on/off road, surrounding development, source of water, etc.)
 6. land category
 7. present and past cultivation
 8. public services (amenities/utilities nearby)
 9. date of inspection
 10. details of any structure on the land
 11. details of any trees on the land
 12. DPAC valuation

13. estimated market price by real estate agents in the open market (The property dealers/real estate agents guess the value of land based on their acumen and experience)
14. valuation at replacement cost by the ITV
15. difference between DPAC valuation and that of the ITV in absolute figures and percent.

Output Requirements

17. The assignment is for 1.5 PM. The outputs of the valuation study include an inception report, a valuation report for the water supply subprojects and a valuation report for the 2 wastewater treatment plants covered by PICIIP.

- (i) Inception Report. Within 5 days from signing the contract, the ILV will submit an inception report that will include
 - (a) the proposed final valuation methodology,
 - (b) presentation of a sample report structure (table of contents or similar),
 - (c) method of engagement with key stakeholders (DPACs, etc.) and outcomes of any Initial discussions,
 - (d) resolution of remaining implementation issues, and
 - (e) detailed work schedule.
- (ii) Valuation Report for the Water Supply and Sanitation Subprojects. Within 2 weeks from the review and acceptance of the inception report by ADB and the Local Government and Community Development Department of Punjab (LG&CD), the ILV will submit the final valuation report for the 3 pumping stations that summarizes the findings of the study.
- (iii) Valuation Report for the Wastewater Treatment Plant Subprojects. Within 4 weeks from the review and acceptance of the inception report by ADB and LG&CD, the ILV will submit the final valuation report for the 2 WWTP subprojects.

Consultant Qualifications

18. The valuation firm or expert should be a registered valuer with the Pakistan Bankers' Association with at least 5 years' experience in doing valuation work for agricultural, residential and commercial land and buildings (Panel 1) in both urban and rural areas, preferably within the Punjab Province. The valuation firm or expert should be familiar with the application of Section 23 of the LAA in determining fair market value.

19. The valuation firm or expert should thoroughly familiarize themselves with the concept of replacement cost, in accordance with para 10, Appendix 2 of the ADB SPS 2009.

VALUATION STUDY AND METHODOLOGY

VALUATION STUDY

INTRODUCTION OF SUB-PROJECT (Affected Land)

Name of Subproject :

21. **PICIIP-Package-12-Waste Water Treatment Plant-Sialkot.**

Location of Affected Land:

22. The total area of affected land is measuring 239.303 acres of the above mentioned sub-project. It comprises four Mouzas e.g Chak Kala, Mouza Chitti Sheikhan, Mouza Tonkanwali and Mouza Kapoor Wali, Tehsil & District Sialkot. It is located at the southern side of the City and it has a distance of 4 kilometers from the Kotly Behram Chowk (intersection of Kashmir Road and Gohadpur Airport Road) which is a famous benchmark and well known commercial location in Sialkot City.

23. As above mentioned that the total area of 239.303 acres affected land fall in four Mouzas e.g Chak Kala, Mouza Chitti Shaikhan, Mouza Tonlanwali and Mouza Kapoor Wali. However, these all four mouzas and total 239.303 acres affected land is combined.

24. Mouza wise detail of affected land is as under :

Area of affected land in Mouza Tonkanwali:	1.505 Acres.
Area of affected land in Chak Kala :	185.042 Acres.
Area of affected land in Mouza Chitti Shaikhan:	43.599 Acres.
<u>Area of affected land in Mouza Kapoorwali:</u>	<u>9.155 Acres.</u>
Total Area of affected land:	239.303 Acres.

25. The entire area is agricultural in nature and seasonal crops are produced. It includes mostly Wheat and Maize and some other varieties of vegetables. At present, mostly Wheat crops are being produced.

26. The main area of subject affected land is located at the away from the main Airport Road and it has access from the main Road through 10.000 meters wide owned passage at mouza Tonkawali. Mouza Tonkanwali is for the entire affected land corridor which connects the entire affected land with Main Airport Road.

27. We have provided the View of Location of the Project Site / Affected Land from Google Map at Figure No. 1, and View of Location of the Project Site / Affected Land from Google Satellite at and Figure 2.

A. – SUBJECT LAND ASSESSED

A1. The subject Land Assessed :

28. The total area of affected land for proposed WasteWater Treatment Plant, Package 12 is 239.303 acres and the same has been evaluated in subject IVS report.

A2. Land Parcel and Affected Persons :

29. The subject 239.303 acres affected land is accessible and we have selected 100% parcels of land as the sampling procedure.

30. The name of affected persons with their affected area of land with location particulars are mentioned in below Table A2.1.

31. For our Land Record Review, we have reviewed the "Mutation" document of each affected person. Due to the huge number of pages, we have not provided in the Report.

B6. Evidences of Lands transactions in the vicinity and immediate neighbourhood:

49. We have found data on several mature transactions in the recent past but it cannot be compared with the affected land area 239.303 acres. However, it can be consider as a benchmark transaction.

50. We got the multiple lands transaction evidence which has been done in mouza Chitti Sheikhan, hence, the surrounding areas and complete 239.303 acres subject affected land is same in nature as agricultural. Therefore, we have considered the same evidence for other Mouzas of affected land e.g Chak Kala and Mouza Kapoor Wali.

B6.1. Detail of Land Transaction 1:

Index No.	Location	Area of Land sold. (Acres)	Amount of land sold (Rs.)	Rate per Acre (Rs.)	Dated
B5.1.1	Chak Kala Kapoorwali	1.000	2,000,000	2,000,000	09-03-2019

The evidence of the transaction is provided in the figure B5.1A below:

Fig B6.1A: The evidence of transaction of land in Chak Kala - Kapoorwali:

The figure shows a detailed land transaction record in Urdu. At the top, it is titled 'چاک کالا' (Chak Kala) and 'کپور والی' (Kapoorwali). The document contains a table with the following columns: Index No., Location, Area of Land sold (Acres), Amount of land sold (Rs.), Rate per Acre (Rs.), and Dated. The table entry matches the data in the previous table (B5.1.1). Below the table, there are several sections: a stamp from 'Central Bank of Pakistan', a photograph of a structure, a portrait of a man with ID number 554240/845450, and various handwritten notes and signatures. The document is dated 24/05/2021.

51. The purpose of review and consideration of the above documents is to have knowledge about the land price in the surrounding area of the subject land, so that all parameters can be considered while determining the value of subject land.

52. In addition to above mentioned mature transactions, we have reviewed the awarded rates by the DPAC and that of prevailing rates of sales records in the sampled areas / mouza taking into account the accessibility to the land including location of the land, fertility / productivity; availability of amenities, and also checked the other pertinent factors that may affect the land values.

C. – METHODOLOGY FOR THE DETERMINATION OF REPLACEMENT COST

C1. Assessment of Location:

53. The land assessment in the location of affected land area, the rates of lands which is located at the road are higher, but the area of affected land of sub project is located off-road as described above, so there is the rate of land is lower than the Airport Road.

C2. Consideration of Value of similar properties in the vicinity and in the immediate neighborhood:

54. We have considered the value of similar properties in the vicinity and immediate neighbourhood. The rate of similar properties (residential and commercial constructed properties) is different considering the size & area of land and accessibility. We have also considered its type of land and its use. The whole subject affected land 239.303 acres is all in use.

55. The evidence of sold properties in the vicinity and immediate neighbourhood, as discussed earlier in the report.

C3. Consideration of Accessibility:

56. It has access from the Airport Road through 10.000 meters wide, which is the part of the subject affected land at mouza Tonkanwali.

C4. Consideration of land type and use:

57. The subject land is purey agriculture in nature and being used as agricultural at present.

C5. Consideration of availability of sources of Water:

58. We have considered the availability of source of water. There is proper civil water system in entire area.

C6. Consideration of other amenities:

59. All other amenities i.e transport, electricity and residential & commercial infrastructure is available in the area.

C7. Consideration of distance from the population / nearest town/village:

60. At 2.5 km on Airport Road the well populated area known as Gohadpur Town is located from the proposed passage of subject affected land.

C8. Consideration of market competitiveness and the prevailing economic environment in the country affecting real state

61. We have considered the market competitiveness and the prevailing economic environment in the country affecting real estate.

62. At present, the real estate is going to upward in the Country and the values of all kind of real estate including residential and commercial properties, even the values of agricultural lands have also been increased.

C9. Consideration of all transaction costs

63. We have considered all transactions costs that may be applicable in case of sale and purchase of similar land in the vicinity of the area. 8% other standard expance on transferring the land including Documentation, Government Schedule Charges and Taxes etc.

The detail of transaction cost is as follow:

Detail of standard expance:

3% of Stamp Paper as per value of Land.

1% District Council Tax.

2% FBR (Federal Board of Revenue) Tax.

2% other Expance towards commission etc.

C10. Consideration of market rates of structures (business & residential) without deduction of depreciation:

64. We have checked the rates of structures (Tube Well Rooms etc) from construction market and applied accordingly, depreciation cost have not been taken into account while assessing the structures. The schedule of valuation of structure / buildings is mentioned at next section of this report.

The detail of cost considered is as follow:

- Material,
- Labor,
- Material Transportation, and
- Other un-seen applicable utilities type services.

C11. Rates of crops cultivated on the affected land:

65. We have taken the rates of crop from the relevant department and from the market. We have prepared the “Schedule of Replacement Cost of Non-Land Assets” in the next section of this report, and mentioned the cost of Crops accordingly.

66. We were not provided the quantity and rate of the crops of the subject affected land area from the relevant department. However, we have provided the rates and replacement cost of Crops in the report, since at present the crops are being produced and cultivated on the affected land.

C12. Rates of Fruits trees considering the investment cost & fruit bearing age, the rate of wood / timber in case of non-fruit trees:

67. We have checked the rates of fruit trees considering its investment cost and fruit bearing age, rate of wood / timber. We have taken the rates of fruit / non-fruit trees and wood / timber from the relevant department and from the market. The rates have been “Schedule of Other Non-Land Assets” at next section of this report.

D. - TASKS FOR CONDUCTING THE SUBJECT INDEPENDENT VALUATION STUDY

- D1.** We have selected sample of 100 percent of affected land of sub project Package “Package-12-Waste Water Treatment Plant, Sialkot” including all category of land (i.e residential and commerical etc) and location (off-road / adjacent to the road) from the list of land parcel to be acquired.
- D2.** We have conducted the thorough market study and survey the area and checked the rates of different lands. We have contacted with the knowledgeable persons and property dealers in the area and have discussed the rate of lands and subject residential affected land.
68. We have also conducted the physical survey to make a general assessment of the location of the land parcel (on/off road), value of similar properties in the vicinity, accessibility, nearby amenities (like schools, commercial markets, hospital, etc.), including (structures, trees, and other land development measures) made to the land parcel, general supply and demand environment in the locality, and prospective buyers in the locality.
69. In surrounding / adjacent areas of the subject land, the rate of comparable land not found and no comparable land has been transacted in past or recent past, however, small piece of lands have transaction done and we have provided same as evidence of transactions in this report.
- D3.** We have met the following relevant stakeholders in regard of valuation of subject land, including the DPs, LA Staff, Project Land Staff, DC Office Staff and Revenue Officials.

Names of DC Staff and other Revenue Officials:

Assistant Commissioner, Sialkot
M. Iftikar (Halqa Patwari)
M. Sajid (Halqa Patwari)

- D4.** We have obtained the copies of previous land awards, valuation tables and mutations information in the affected mouzas / area.
- D5.** We have get the information on recent land transactions, land use, availability of land in the project area and region, and factors prospective buyers consider while buying land in the region.
- D6.** We have reviewed the awarded rates by the DPAC and that of prevailing rates of sales records (sale deed) in the sampled villages (mouzas) taking into account the accessibility to the land, location of the land; fertility/productivity; availability of amenities; and any other pertinent factor that may affect land values; verify the average farm yield/productivity rates from different sources i.e. LAS office, local Owners, and the Department of Agriculture.
- D7.** We have appraised the fair market value of the sampled properties (based on the actual prices at which a lost asset can be sold and acquired in today’s markets as opposed to registered prices in land records), as well as relevant transaction costs and other elements of to obtain RC in accordance with the ADB SPS 2009;

E: VALUATION METHODOLOGY

70. We have conducted the thorough market study and found out the trend & tone of sale/purchase in the area. We have contacted to the various owners of agricultural lands and have consulted with the knowledgeable persons in the area about the specific subject affected lands.
71. We have also considered the DPAC Assessment and provided allied data of lands rates. We have also collect the recent matured land transactions data and make the part of report. This land transactions data is comprised of small piece of lands and not compare with subject affected land, however, it can be consider a bench mark to determine the value of subject affected land.

72. After considering the matured land transactions as bench mark, we have applied detail and multiple exercise to determine the average rate per acre.

73. The DPAC assessment is based on one year average of the preceding year, however, for the IVS study and to achieve the Replacement Cost we have based our assessment on the market trends, assessment of recent land transactions in the area, future real estate trends and all the transitional costs.

74. The difference between the Replacement Cost Methodology and DPAC Methodology is that we, as independent valuer, have determined the Replacement Cost of affected land on the following basis:

- Physical survey conducted of subject 239.303 acres affected land in the area.
- Gathered information and available evidence of the transacted lands in the adjacent to the affected area and in the vicinity.
- Calculated the average value of transacted lands.
- Considered the DPAC Assessment.
- Considered the average rate of last year.
- Considered the average Valuation Table by the Board of Revenue.
- Considered the information about the rates of lands in the area of reliable estate agents.
- Considered the value of lands of Owners of the adjacent and immediately neighbourhood lands.

Other than the above consideration:

- Standard transaction cost added.
- Non-land assets cost added.

75. We, as independent valuer, have determined the Replacement Cost of the subject affected land on the above mentioned basis, and The District Price Assessment Committee (DPAC) has assessed and approved the rate of affected land on basis of the competent authority in exercise of the power conferred under the rule 12 (iii) of the Punjab Land Acquisition Rules 1983.

76. Similarly, we have determined the Replacement Cost of the Non-Land Assets i.e Building / Construction and Trees on following methodology basis:

77. In general, the valuation practice in Pakistan of properties is based on the market trends and tone of sale purchase. After surveying the property, the neighborhood area and vicinity are visited and the area is evaluated. This area is classified according to its use. Later, the property dealers or estate agents in or near the area are met to assess the property. Data of properties sold in the past and properties available for sale is collected. The Government standard valuation table of properties and other Taxes on sale purchase on property also is considered.

78. After the above standard practice, the value of the property is determined based on the data collected from the dealers and estate agents. This is an internationally standardized similar process for determining the value of any asset. However, the income and business factor also is considered in context of income generating from the property, according to the scope of work. Such as its rental income or its commercial income according to its use.

Building / Construction:

79. We have consulted with the reliable contractors and checked the current construction rates of similar kind of construction. We have also checked the relevant construction market and take the rates of construction material. We have applied the market rate to its covered area and have determined its Replacement Cost of construction (table F1.1).

Trees:

80. we have checked the rates of trees considering the its possible investment cost and rate of wood / timber from the relevant market. We also checked the rate of same wood in the market including considering its natural features.

81. We have added a possible 25% estimated cost in market rate of a tree i.e. its purchase cost, transportation cost, labor cost and feeds cost etc. for determine the Replacement Cost of a tree as given below in table F2.1 and F2.2.

E1. Final determination of value of 239.303 acres subject affected land:

82. For the final determination of value of the subject 239.303 acres affected land, we have first, established the summarized schedule of rates of land as per assessed by DPAC at Sub-Section E1.1, and established the summarized Schedule of the Matured Transactions in recent past at Section E1.2 below:

E1.2. Summarized Table of all 8 Land Transactions :

Index No.	Report Reference Index No.	Location / Mouza	Land Area Sold (Acres)	Rate / Acre (Rs.)
E1.1	B6.1	Chak Kala Kapoorwali	1.000	2,000,000
E1.2	B6.2	Mouza Chitti Sheikhan	0.250	2,400,000
E1.3	B6.3	Mouza Chitti Sheikhan	0.250	3,200,000
E1.4	B6.4	Mouza Chitti Sheikhan	0.125	4,000,000
E1.5	B6.5	Mouza Chitti Sheikhan	0.250	6,200,000
E1.6	B6.6	Mouza Chitti Sheikhan	0.294	8,492,569
E1.7	B6.7	Mouza Chitti Sheikhan	0.156	9,600,000
E1.8	B6.8	Mouza Chitti Sheikhan	0.150	10,000,000

83. We have determined the value of land after considering the valuation methodology and criteria which is mentioned in Main Sections C, D and E.

84. As per the above mentioned “E1.2 Summarized Schedule Table of land transactions”, the matured transactions which have been done in the same affected area, the lands have been sold in-between Rs. 2,000,000/- to Rs. 10,000,000/- per acre.

85. According to the gathered information from the knowledgeable persons and reliable estate agents in the vicinity and immediate neighborhood of the subject affected land, the average rate of lands are in-between Rs. 2,500,000/- to Rs. 3,000,000/- per acre depending on the size of land and yield of crops etc. Moreover, the DPAC has also mentioned the location wise Market Rates of subject affected lands, which is Rs. 2,700,000/- per acre. However, we have applied the detailed practice on available transactions rate to average out the realistic rate of per acre. The mathematical schedules are provided at Table E1.4.

86. There is no recent transaction of affected land at main Airport Road (proposed passage for Road to main land area) of Mouza Tonkanawali, hence, we have relied on the “Average Price during the 12 months preceding Notification u/s 4 2018 to 2019” by DPAC, since, the rate of land at main Airport Road is same as per DPAC and according to the current market

87. Further, to get the balance rate of an acre which is categorical mentioned e.g “Industrial Land”, “Residential Land” and “Agricultural Land”, we have taken “Average Price during the 12 months preceding Notification u/s 4 2018 to 2019” by DPAC and “DPAC Assessment”. The both values have been calculated on a rationale percentage and applied to higher rate and lower rate for determining the average rate of affected land. Mathematical Schedule to determining the average unit rate is given below Table E1.3:

E1.3: Table of final unit rate is given below for affected land at Mouza Tonknawali (Access Passage):

88. Please refer to Para No. 82 and based on the given below Table of Summarized Schedule of Transactions, to determine the average unit rate, we have step-by-step calculated the land transactions. We have arranged all available transactions according to the close bracket rates and extracted the average rate per acre.

Table E1.4: Mathematical Schedule for determination of the average value of land as per Land Transactions: (Report Reference No. B5.6):

Index No.	Reference Description of Rate	Rate / Acre (Rs.)	Remarks	Ratio (%)	Decreased / Increased Amount (Rs.)	Average Rate / Unit (Acre) (Rs.)

89. We have applied the same practice to get the balance rate average rate per acre of the DPAC Assessment which is categorical mentioned the land status (Off-Road Land and Agricultural Land) in DPAC document (provided at Fig. B4.1A – B4.3A and B4.1B – B4.1B - 2B, and given summarized Table No. B4.3). We have calculated the a rationale percentage and has applied to higher rate and lower rate for determining the rate of affected land. **Mathematical Schedule to determining the average unit rate is given below:**

Index No.	Reference Description of Rate	Rate / Acre (Rs.)	Remarks	Ratio (%)	Decreased / Increased Amount (Rs.)	Average Rate / Unit (Acre) (Rs.)

Determination of average rate of Chak Kala and Mouza Chitti Sheikhan							
E1.4.22	Average Rate of Mouza Chitti Sheikhan	2,095,240	Maximum	1.644	34,446	2,060,794	2,060,788
E1.4.23	Average Rate of Chak Kala	2,027,451	Minimun	1.644	33,331	2,060,782	

90. The rate of affected land at Mouza Kapoor Wali will be considered same rate as per Land rate of Chak kala and Mouza Chitti Sheikhan, since, we mentioned at Para No. 51 “the complete subject affected land is same in nature as agricultural” therefore, we have applied the same rate per acre on affected land of Mouza Kapoor Wali.

91. Finally, to get the balance rate of an acre, we have calculated the determined value per acre as per above practiced Schedules of “Transacted Lands” and “DPAC Assesemnet”, extracted the the a rationale percentage and has applied to higher rate and lower rate for determining the rate of affected land. **Mathematical Schedule to determining the average unit rate is given below:**

Mathematical Schedule for Final Detemination of the the average rate of affected land at Chak Kala, Mouza Chitti Sheikhan and Mouza Kapoorwali:

F1. Construction / Buildings:

1. We have carried out an exhaustive physical survey of buildings constructed on the subject 239.303 acres affected land. There are tube well rooms constructed with the typical type of construction.
2. After above exercise, we have consulted with the contractors and collected the current construction rates of similar kind of construction. We have applied the quoted rates to its covered area and have determined its Replacement Cost of construction (table F1.1.)

F2. Trees:

We have conducted the survey of trees on subject 239.303 acres affected land. There are total 206 different types of trees. We were provided the detail of trees with quantity and we have physically checked. The all trees naturally grown on the affected, hence, the condition of trees are good. The quantity and detail of trees provided by the relevant Forest Department. The type of

trees is provided in table F2.1A below.

3. For the valuation of trees, we have checked the rates of trees considering the its possible investment cost and rate of wood / timber from the relevant market. We also checked the rate of same wood in the market including considering its natural features.

4. We have added an possible 25% estimated cost in market rate of a tree i.e. its purchase cost, transportation cost, labor cost and feeds cost etc. for determine the Replacement Cost of a tree as given below in table F2.1B.

F2.3. Bore / Centrifugal Pump for Deep Earth Water:

5. There are only Centrifugal Pumps Installed with bore piping instead of the complete Tube Well Unit. We have provided the specifications of the Centrifugal Pump Unit with the Owner's name and location in below mentioned table, Table, F2.3A.

6. We have checked the current rates of the complete Centrifugal Pump Unit Including the bore pipes and accessories from the relevant market. After collected the quoted price and applied to Centrifugal Unit to determine the Replacement Cost. We have also considered its complete cost of installation / erection and its allied compulsory components to operate, and mentioned same in below table F2.3 of Replacement Cost:

Table F2.3A: Detail of specifications of the Centrifugal Pump Unit with the Owner's name and location:

F2.4. Crop :

7. During the survey there is Wheat Crops being produced on the subject 239.303 acres affected land. However, we have taken the two crops Wheat and Maize in one year as Winter and Summer Season since, there is mostly Wheat and Maize produced.

8. We have taken the best rates of the crops from the relevant market and add the labour, transportation and other cost to determine the Replacement Cost of Crops. The Average Production, Rate per Unit, Labour and Transportation and Replacement Cost Schedule is given below at Table No. F2.4A.

Table F2.4A: Detail of calculation of per acre replacement cost of the Crops at Mouza Muhammad Pur.

Index No.	Average Production / Acre (Mound)	Rate / Mound (Rs.)	Value of Crop in one Acre (Rs.)	Seed, Labour and Transportation etc. (per Acre)	Value of Crop (per Acre)	Total Area of affected Land (Acres)	Total Replacement Cost (Rs.)
F2.4A.1	Crop : Wheat (Winter Season)						
F2.4A.1.1	30	1,800	54,000	4,000	58,000	239.303	13,879,574
F2.4A.2	Crop : Rice (Summer Season)						
F2.4A. 2.1	35	2,000	70,000	4,500	74,500	239.303	17,828,073
	Total Replacement Cost of Crop						31,707,647

G.- SUMMARY OF CRITERIA AND FACTORS CONSIDERED AND APPLIED TO DETERMINE THE REPLACEMENT COST OF THE SUBJECT LAND:

- Land Record Reviewed.
- Physical survey of affected 239.303 acres land.
- Location of the subject land.
- Checked the surrounding area of affected 239.303 acres land.
- 100% used the sample of affected land of subproject.
- Check the access to subject land.
- Check the condition of subject land.
- Check the availability of amenities for a agricultural land.
- Infrastructure facilities, including road and market, surrounding social environment.
- Awarded rates of the DPAC by the Board of Revenue of subject land.
- Valuation Table and Average Rate of Land from Revenue Office, Sialkot.
- Past and recent available prevailing rates of sales record.
- Lands transactions in the surrounding areas of the subject land.
- Consultation with the Owners of subject land.
- Consultation with the DC Office Staff and Revenue Official on subject land.
- Taken the 8% towards other standard expense on transferring the land including Documentation, Government Schedule Charges and Taxes etc.
- Checked the current prices of the Non-Land Assets from the market.

G. SUMMARY OF THE REPLACEMENT COST OF 239.303 ACRES AFFECTED LAND OF PROJECT:
